## 1. Introduction

Dicorate ER 250 is a generic medicine of Depakote. Dicorate ER 250 is a Antiepileptics medicine belonging to N05AX Psycholeptics, Antipsychotics, Other Antipsychotic group. Dicorate ER 250 exerts its activity by potentiation of the inhibitory action of gamma amino-butyric acid (GABA) through an action on the further synthesis or further metabolism of GABA. Dicorate ER 250 is approved in Tanzania for use in adults, elderly.

### 1.1 Product details

Registration number	TAN 21 HM 0160
Brand name	Dicorate ER 500
Generic name, strength and form	Divalproex sodium Equivalent To Valproic Acid 250 mg
ATC classification	N05AX Psycholeptics, Antipsychotics, Other Antipsychotic
Distribution category	POM
Country of origin	India
Associated product	Dicorate ER 500
Marketing Authorization Holder	Sun Pharmaceutical Industries Ltd, Sun House, Plot No. 201 B/1, Western Express Highway, Goregoan (E), Mumbai, Maharashtra <b>India</b>
Local Representative	Technical Salama Pharmaceuticals Limited P.O. Box 65235, Dar es Salaam

### 1.2 Assessment procedure

The application for registration of Dicorate ER 250 was submitted on 24<sup>th</sup> March, 2020. The product underwent full assessment. Assessment was completed in two rounds of evaluation. Dicorate ER 250 was registered on 29<sup>th</sup> March, 2021.

### 1.3 Information for users

Visual description of the finished product	Grey color, oval, biconvex, coated tablet plain on both sides
--	---

Primary packing material	Aluminium printed foil blisters
Secondary packing materials	Carton box
Shelf-life and storage condition	24 months Store below 30 °C in dry place
Route of administration	Oral
Therapeutic indications	Treatment of manic episodes associated with bipolar disorder (manic-depressive illness), a condition with symptoms of excitement or euphoria

## 2. Labelling and product information

### Summary of product characteristics

The SmPC included all the relevant information to ensure correct and safe use of the medicine by healthcare providers. The complete SmPC can be accessed [here](#).

### Package insert/leaflet

The package insert is confirmed to be derived from the SmPC and contains sufficient data for the end user. Since the product is POM the package insert contains full prescribing information as per SmPC

### Container labels

The product label information is presented in English. Details in the secondary pack label include:

Brand name: Dicorate ER 250

Composition: Divalproex sodium equivalent to Valproic acid 250 mg, hydrogenated castor oil, anhydrous Lactose, Hypromellose, Isopropyl alcohol, purified water, Talc, Magnesium stearate, Silicon dioxide, Opadry 03F57509 grey

Pack size: 10's in a blister, 5 blisters in a carton box

Manufacturing details: <batch number, manufacturing date, expiry date>

Storage conditions: Store below 30 °C in dry place

Manufacturer address: Sun Pharmaceutical Industries Ltd, Survey No. 214, Plot No. 20, G.I.A. Phase-II, Piparia, Silvassa- 396 320, U.T. of Dadra & Nagar Haveli, India

Unique identifier: NA

Special warnings/precautions or instructions for use: <include warnings or IFU if applicable

The details of the primary pack include:

Brand name and strength: Dicorate ER 250 (Divalproex sodium equivalent to Valproic acid 250 mg)

Manufacturing details: <batch number, manufacturing date, expiry date>

Name of manufacturer: Sun Pharmaceutical Industries Ltd

The content of the primary and secondary labels was aligned to the requirements of the Part V of the Compendium: Guidelines on Format and Content of Product Labels for Medicinal products. The label contains sufficient information for proper identification of the medicine and post marketing follow up of the product.

Describe any approved deviation to the requirements and the justification for the deviation.

Mock labels are appended as annex I

### 3. Scientific discussion

#### Quality of Active Pharmaceutical Ingredient(s)

Information on quality of the API was submitted in form of Full details

##### General properties

Divalproex sodium API is compendia in USP/BP.

Molecular formula:  $C_{16}H_{31}NaO_4)_n$

Chemical name: Sodium hydrogen bis(2-propylvalerate) oligomer or Pentanoic acid, 2-propyl-, sodium salt

Structure:

Sodium valproate is crystalline powder which is hygroscopic and very soluble in water while Valproic acid is a colorless or very slightly yellow, clear liquid, which is slightly viscous and Very slightly soluble in water.

### Manufacture

The API manufacturing site, Sun Pharmaceutical Industries Limited A-7/A-8, M.I.D.C., Industrial Area, Ahmednagar – 414 111, Maharashtra, India was noted to comply with WHO GMP requirements as evidenced by the GMP certificate issued by <state the issuing authority>. Divalproex sodium API is manufactured by chemical synthesis using conventional techniques. Sufficient controls of quality of materials and in-process checks were employed throughout the manufacturing process.

### Specifications

The API specifications were set as per USP, in-house standards and ICHQ3A. The parameters monitored during quality control are: appearance, solubility, identification, assay, water content, chloride content, sulphated ash, residual solvents, related substances. Compliance to these specifications were established via batch analysis data and stability studies.

### Stability and container closure system

The re-test period of Divalproex sodium API is 60 months when packed in low density polyethylene bags (inner transparent and outer black bag) placed in fiber board drum under nitrogen atmosphere and stored at 25°C/60% RH.

## **Quality of the Finished Pharmaceutical Product**

### Formulation

Dicorate ER 250 is a grey colour, oval, biconvex coated tablet plain on both side packed in Aluminium printed foil blister. Describe the diluent, measuring devices or any delivery device if applicable. Dicorate ER 250 contains Divalproex sodium and other ingredients listed here after hydrogenated castor oil, anhydrous Lactose, Hypromellose, Isopropyl alcohol, purified water, Talc, Magnesium stearate, Silicon dioxide, Opadry 03F57509 grey. The quantities of all ingredients are confirmed to be in line with the recommendations of Handbook of Pharmaceutical Excipients, Edition 8<sup>th</sup> in terms of function and quantities. Ingredient, anhydrous Lactose is of safety concern therefore appropriate warnings were included in the product label.

## Manufacture

The finished product was manufactured at Sun Pharmaceuticals Industries Ltd., Survey No.214, Plot No. 20, G.I.A., Phase II, Piparia, Silvassa – 396230, U.T. of Dadra & Nagar Haveli, India. The compliance of the site to TMDA GMP standards was confirmed through site inspection on 2017.

## Specifications

The FPP is non-compensatory. The manufacturer controls the quality of the finished product as per in-house and ICHQ3B requirements. The parameters monitored during quality control are: Description, Identification (by HPLC), Average Weight, Dissolution (By HPLC), Uniformity of Dosage Units (By weight variation), Assay (By HPLC), Related Substances (By GC) and Microbial Limit Test. Compliance to the standard was established using batch analysis data and stability data.

## Stability and container closure system

Stability studies were conducted on three batches of the finished product stored at 30°C ± 2°C/ 60% ± 5% RH for 24 months and 40°C ± 2°C/75% ± 5%RH for 6 months. Based on the stability data presented, the approved shelf-life is 24 months when stored in Aluminium printed foil blisters at store below 30°C in dry place.

## **Safety and efficacy information**

### **In case of biowaiver**

The biowaiver was approved based on additional strength.

Dicorate ER 250 fulfilled the criteria for waiving an in-vivo bioequivalence study as per relevant TMDA guidance. Dissolution profiles of Dicorate ER 250, Divalproex sodium Equivalent To Valproic Acid 250 mg, extended release tablets was compared to Dicorate ER 500, Divalproex sodium Equivalent To Valproic Acid 500 mg. At least 85% of the labelled amount of Divalproex sodium had dissolved in all three media. Therefore, confirming similarity

## **4. Benefit-Risk Assessment and Conclusion**

On basis of the data submitted, the current state of knowledge and compliance to Good Manufacturing Practice, the benefit of the product outweighs the risks associated with its use when used in accordance to the summary of product characteristics. Dicorate ER 250 is recommended for registration.

## **5. Post-approval updates**

**Variation applications**

Reference number	Date submitted	Change requested	Recommendation	Granting date

**Feedback from pharmacovigilance, post marketing surveillance and enforcement activities**

Type of feedback	Impact	Response

**Re-registration applications**

Application for renewal of registration was submitted on <DDMMYYYY>. The application was finalized in <number> rounds of evaluation. The product was confirmed to still be compliant to the standards of quality, safety and efficacy, hence registration was renewed on <DDMMYYYY>.

**PART 5: CHANGE HISTORY**

**Dicorate ER 250**

5 Blisters de 10 Comprimés chacune

Divalproex Sodium Extended  
Release Tablets 250 mg

**Dicorate ER 250**

5 Blisters of 10 Tablets each

**Dicorate ER 250**

Each film coated extended release tablet contains:  
 Divalproex Sodium USP eq. to Valproic acid 250 mg  
 Colour: Opadry White  
 Dosage: As directed by the Neurologist.  
 Tablets to be swallowed whole, not to be chewed.  
 The product contains lactose.  
 Do not store above 30°C. Store in original package in order to protect light.  
 Keep out of the reach and sight of children.

**WARNING: To be sold by retail on the prescription of a Neurologist only.**

**Dicorate ER 250**

5 Blisters de 10 Comprimés chacune

Comprimés de Divalproate de Sodium  
à Libération Prolongée à 250 mg

**Dicorate ER 250**

**To be overprinted by Location**

GTIN: XXXXXXXXXXXXXXX  
 Sr. No.: XXXXXXXXXXXXX  
 Batch No.: XXXX  
 Mfg. Date: XXXXXX  
 Exp. Date: XXXXXX

Chaque comprimé pelliculé à libération prolongée contient:  
 Le Divalproate de Sodium USP exprimé en acide Valproïque 250 mg  
 Couleur: Blanc Opadry  
 Posologie: Respecter les doses prescrites par le Neurologue.  
 Comprimés à avaler entiers, à ne pas croquer.  
 Le produit contient du lactose.  
 Ne pas conserver à une température supérieure à 30 °C.  
 Conserver dans son emballage d'origine afin de protéger la lumière.  
 Tenir hors de portée des enfants.

**MISE EN GARDE: Délivrer uniquement sur l'ordonnance d'un Neurologue.**
