THE TANZANIA MEDICINES AND MEDICAL DEVICES ACT

(CAP 219)

.....
REGULATIONS
.....

(Made under section 122(1)(e))

THE TANZANIA MEDICINES AND MEDICAL DEVICES (SCHEDULING OF
MEDICINES) REGULATIONS, 2025

ARRANGEMENT OF REGULATIONS

PART ONE
PRELIMINARY PROVISIONS

1. Citation
2. Scope and Application
3. Interpretation

PART TWO
ADMINISTRATIVE PROVISIONS

4. Establishment of Committee
5. Functions of Scheduling of Medicines Advisory Committee

PART THREE
SCHEDULING OF MEDICINES

6. Restrictions
7. Criteria for Scheduling of medicines
8. Amendment of Schedules
9. Compliance with the rules of scheduling medicines
10. Banned or recognition of banned medicines

PART FOUR
LIST OF SCHEDULES

11. Controlled human Medicines
12. annual consumption
13. Records of controlled medicine

14. Package and storage of controlled medicine
15. Narcotic drugs and substances
16. Psychotropic substances
17. Precursors
18. Prescription-only human medicines
19. Radiopharmacy- ceuticals
20. Pharmacy Only Medicines
21. Behind-the-counter human medicines
22. Over the counter medicine
23. General Sales Human Medicines
24. ADDO Human Prescription Medicines
25. Controlled veterinary medicines
26. Import permit
27. Records of controlled veterinary medicine
28. Package
29. Storage of controlled veterinary medicine
30. Prescription and administration
31. Prescription-only veterinary medicines
32. Pharmacy only veterinary medicine
33. General sales veterinary medicines
34. ADDO veterinary medicines
35. Stocked of Veterinary Medicine
36. Revocation and saving provision G.N 63 of 2015

PART I PRELIMINARY PROVISIONS	
Citation	1. These Regulations shall be cited as the Tanzania Medicines And Medical Devices (Scheduling of Medicines) Regulations, 2025.
Scope and Application	2. The Regulations shall apply for the scheduling of medicines in their respective categories of human and veterinary medicines in Tanzania Mainland.
Interpretation	3. In these Regulations, unless the context otherwise requires
Cap 219	“Act” means the Tanzania Medicines and Medical Devices Act;
	“additives” means inactive ingredients added as formulation or technical necessities;
	“ADDO” means accredited drug dispensing outlets;
Cap 319	“animal” means any vertebrate other than a human being as defined by the Veterinary Act;
	“Authority” means the Tanzania, Medicines and Medical Devices Authority or in its acronym “TMDA” established by Section 4 of the Act;
	“controlled drug or controlled medicine” means any narcotic drug, psychotropic substance or precursors intended for medical and scientific purposes.
	“dispense” means the supply of a medicine, medicinal product or poison on and by a prescription lawfully given by a medical practitioner, dentist or veterinary surgeon;
	“facility” means; pharmacy, veterinary centre, veterinary clinic, supermarket, ADDO shops, hospital, dispensary, health centre and ambulatory service;
	“General sale medicine” means any medicine whose use does not need the direction or prescription by a medical practitioner, dentist or veterinarian;
	“narcotic drugs” means any of the substances natural or synthetic referred to in the Single Convention on Narcotic Drugs of 1961 intended for medical and scientific purposes;
Cap 319	“narcotic drugs” means any of the substances natural or synthetic referred to in the Single Convention on Narcotic Drugs of 1961 intended for medical and scientific purposes;
Cap 319	“paraprofessional Assistant” means any person enlisted as a paraprofessional assistant under the Veterinary Act;
Cap 311	“pharmacist” means a person who is registered as a pharmacist under the Pharmacy Act;
	“pharmacy-only medicines” means all non-prescription medicines other than general sales medicines;
	“prescription” means a lawful written direction by a medical practitioner, dentist or veterinary surgeon for the preparation and dispensing of a drug by a pharmacist;

	“prescription-only medicines” means any drug product required to be dispensed only upon a prescription given by a veterinarian, medical practitioner, dentist or any other person approved by the Minister;
	“psychotropic substances” means any substance natural or synthetic or any natural material, or any salt or preparation of such substance or material referred to in the Convention of Psychotropic Substances of 1971 intended for medical and scientific purposes;
	“radiopharmaceutical” means radioactive pharmaceutical or medicinal product used for diagnosis or treatment;
Cap 311	“veterinarian” means a person registered under the Veterinary Act.
	PART II ADMINISTRATIVE PROVISIONS
Establishment of Committee	4.-(1) The Director General shall establish a technical committee to be known as the Scheduling of Medicines Advisory Committee.
	(2) The Scheduling of Medicines Advisory Committee shall-
	(a) when handling the scheduling of human medicines, reconstitute itself and operate as such under the auspice of the Human Medicines Registration Technical Committee.
	(b) when handling the scheduling of veterinary medicines, reconstitute itself and operate as such under the auspice of the Veterinary Medicines Technical Committee
	(3) The composition and conduct of meetings of the Scheduling of Medicines Advisory Committee shall be determined by the Director General.
Functions of Scheduling of Medicines Advisory Committee	5. The functions of the Scheduling of Medicines Advisory Committee shall be to; <ul style="list-style-type: none"> a) Provide technical advice and recommendations for scheduling of human or veterinary medicines to the Director General; b) Provide technical advice on the restrictions, accessibility and availability of particular medicine or any other matter referred to it by the Director General; and c) Undertake any other related function prescribed as such under these regulations or as may be directed by the Director General.
	PART III SCHEDULING OF MEDICINES
Restrictions	6.-(1) No person shall sell, possess or manufacture any medicine or substance other than those listed under these regulations.
	(2) any person who sells, possesses or manufactures any medicine or substance listed in these regulations shall comply with provisions herein.
Criteria for Scheduling of medicines	7. (1) The criteria for scheduling of medicines categories shall generally take recourse to:- <ul style="list-style-type: none"> (a) risk and benefit profile of a medicine; (b) the purpose for which the medicine is intended to be used; (c) toxicity profile;

	(d) dosage, formulation, labelling, package and presentation; (e) potential for abuse; and (f) any matter considers necessary for the interest of the public.
	(2) Schedule of human and veterinary medicines shall be divided into categories of controlled, prescription only medicine, pharmacy only medicine, general sales medicines and ADDO prescription:
	(3) All medicines registered under the Act after commencement of these regulation, shall be deemed to form part of the schedules herein.
Amendments of Schedules	8. The Authority may change, vary, add or delist any medicines into any category or declare a new category as the case may be without compromising the safety, quality or efficacy of medicines.
Compliance with the conditions of scheduling medicines	9. The use, storage, sale, distribution, manufacturing or any other manner of dealing with medicines under these Regulations shall comply with the conditions of each respective category within the schedules declared.
Banned or recognition of banned medicines	10. All medicines banned by the Authority or any international institutions recognized by the Authority to which the United Republic of Tanzania is a party, shall not form part of these schedules.
PART IV LIST OF SCHEDULES	
Controlled human Medicines	11. (1) The Authority shall group a category of medicines to be known as Human Controlled Medicines which shall include narcotics, psychotropic substances and Precursors as listed under the First Schedule to these regulations.
	(2) Any person who acquire, possess, manufacture or supply human-controlled medicines for sale, shall apply and be issued with a licence or a permit by the Authority.
	(3) The provisions of sub regulation (2), shall not apply to the prescribing or dispensing by:-
	(a) an authorised prescriber;
	(b) a pharmacist on the prescription of an authorised prescriber;
	(c) a pharmacist employed at a hospital, on the written requisition of a medical practitioner, a dentist, the nurse or midwife in charge of the ward in which the medicine is to be used or stored; or
	(d) a nurse or midwife upon the direction in writing by an authorised prescriber.
annual consumption	12.-(1) Any person who is authorized to import human controlled medicines, shall submit to the Authority a justifiable quarter and annual consumption estimates report.
	(2) The report referred under sub-regulation (1), shall indicate the quantities to be

	consumed or to be utilized for the manufacture of other medicines or preparations, stocks of medicines to be held quarterly based on 31st December of the year to which the estimates relate.
Records of controlled human medicine	13.-(1) All manufacturers, wholesalers, importers, distributors, scientists, scientific institutions and hospitals, shall keep records of quantities of each human-controlled medicine acquired, used or disposed.
	(2) The records referred to in subregulation (1) shall be kept for the purpose of inspection and be preserved for a period not less than two years.
	(3) The destruction of controlled drugs shall be authorised and supervised by the Authority.
Package and storage of controlled human medicine	14. (1) Every controlled human medicines shall be packed in a way that its primary pack is so sealed that when the seal is broken, it can be distinguished from other sealed primary packs.
	(2) Controlled human medicines shall be stored in a locked receptacle, in a cabinet or approved safe, which shall only be opened by the person who is in lawful possession of the controlled medicines or a person authorised by that person.
Narcotic drugs and substances	15. (1) Narcotic drugs shall be controlled human medicines and shall include their isomers, derivatives, esters, ethers, salts and salts of isomers, esters, ethers and substances and intermediate or raw materials.
	(2) Narcotic Drugs and substances which are in their original form shall be controlled human medicines.
	(3) The preparations for narcotic drugs containing controlled substances in low strengths shall not be referred to as controlled drugs.
Psychotropic substances	16.-(1) The controlled medicines shall include psychotropic substances with limited medical value presenting:
	(a) a high risk of abuse;
	(b) posing a serious threat to public health;
	(c) having very little or no therapeutic value; and
	(d) salts in its existence.
	(2) The psychotropic substances referred to in sub-regulation (1) shall be used for scientific and medical purposes by a duly authorized person in medical or scientific establishments.
	(3) Psychotropic drugs with moderate or high therapeutic values shall not be referred to as controlled drugs, Such medicine shall be in the category of Human Prescription Only Medicine prescribed in the Second Schedule to these regulations.
Precursors	17. Precursor salts intended to be used or used for manufacturing shall be treated

	as controlled human medicines.
Prescription-only human medicines	18(1). The Authority shall group a category of medicines to be known as Prescription-only human medicines as listed under the Second Schedule to these regulations.
	(2). Prescription Only Human Medicines shall include; <ul style="list-style-type: none"> (a) medicines for symptoms or ailments which require medical or dental intervention; (b) medicines which require adjunctive therapy or evaluation or specialized handling administration during use; (c) medicines that may produce dependency when used at established dosage but have a moderate propensity for misuse, abuse or illicit use; (d) medicines which the margin of safety between therapeutic index and toxic dosage requires prescriber intervention to minimize the risk of using the medicines; (e) medicines which require monitoring or intervention of a prescriber due to the seriousness or severity and frequency of the interactions with other medicines, food or disease; (f) medicines which its use will contribute or likely to contribute to communal harm; (g) medicines which experience use under normal clinical conditions are limited; and (h) human biological products which may require special storage conditions
	(3). No person shall sell by retail or supply in circumstances corresponding to retail sale a prescription-only human medicines except by prescription given by a medical practitioner, dentist or any other authorized prescriber.
Radiopharmaceuticals	19.-(1) All radiopharmaceutical medicines shall be stored, sold, dispensed or supplied in premises authorized by the Authority.
	(2) Radiopharmaceuticals shall be prepared or dispensed by a pharmacist upon obtaining a prescription from an authorized prescriber.
	(3) Pharmacists and other health professionals involved in the storage, compounding, manufacture and dispensing of Radiopharmaceuticals when executing their duties shall operate under acceptable safety conditions as prescribed by the national and internationally recognized regulations.
Pharmacy only Medicines,	20.-(1) The Authority shall group a category of medicines to be known as Pharmacy Only Medicine which shall included behind the counter and over the counter medicine as listed under the Third Schedule to these regulations.
	(2) Pharmacy only Medicine shall be sold, dispensed or supplied in pharmacy, prescription may not be required for such Medicines.
Behind-the-counter human medicines	21. Behind the counter pharmacy only medicine shall include; <ul style="list-style-type: none"> (a) medicines which are substantially safe with Pharmacist intervention to ensure safe use of the medicine; There may be potential for harm if used

	<p>inappropriately;</p> <p>(b) medicines which use is not expected to produce dependency at either established therapeutic dose or at sub-therapeutic doses;</p> <p>(c) medicines with well-defined risk profiles and the risk factors for adverse effects, interactions and contraindications are known, identifiable and manageable by a pharmacist;</p> <p>(d) medicine intended for the recurrent or subsequent treatment of a chronic condition, pharmacist intervention is required to monitor the safe use of the medicines;</p> <p>(e) medicines which it is used use at established therapeutic dosage levels may mask the symptoms or delay the diagnosis of a serious condition;</p> <p>(f) medicines prepared at a pharmacy after a prescription from the medical practitioner, dentist, or any other authorized prescriber; and</p> <p>(g) medicines announced for use in special programmes but require special storage conditions or unusual requirements for safe disposal by the person administering.</p>
Over the counter medicine	<p>22. Over the counter pharmacy only medicine shall include;</p> <p>(a) medicines which use is substantially safe for short-term treatment and potential for harm from inappropriate use is low;</p> <p>(b) medicines which use is very unlikely to produce dependency and the medicine is very unlikely to be misused or abused or illicitly used;</p> <p>(c) medicines whose risk profile is well defined and the risk can be identified and managed by a consumer through appropriate packaging and labelling, including consultation with a health professional if directed by labelling;</p> <p>(d) medicines which need special precaution on handling by the person administering the product;</p> <p>(e) medicine which is not suitable for sale under General Sales but which does not meet the criteria for classification as prescription drugs or controlled drugs;</p> <p>(f) medicines whose proper use can be achieved by labelling and packaging;</p> <p>(g) medicines which require advice on the probability of undesirable effects and interaction with other widely used Medicines.</p>
General Sales Human Medicines:	<p>23.-(1) The Authority shall group a category of medicines to be known as General Sales Human Medicines as listed under the Fourth Schedule to these regulations.</p>
	<p>(2) General Sales of Human Medicines shall include;</p> <p>(a) medicines whose safety profile has long been established and considered to be stable;</p> <p>(b) medicines that are evaluated to be safe at recommended dosage and are commonly used for treatment of minor ailments or symptoms; and</p> <p>(c) medicines which pose no significant risk during administration or risk</p>

	during disposal to the environment.
ADDO Human Prescription Medicines	24.-(1) The Authority shall group a category of medicines to be known as ADDO Human Prescription Medicines as listed under the Fifth Schedule to these regulations.
	(2) ADDO Human Prescription Medicines shall include; <ul style="list-style-type: none"> (a) medicines based upon the contents of dispensary drug kit and in some instances lifesaving potential in rural areas where pharmacies or emergency health providers are distant from a community; (b) medicines announced for use in special programmes but require prescription or unusual requirements during dispensation to the person administering.
Controlled veterinary medicines	25. (1) The Authority shall group a category of medicines to be known as Controlled veterinary medicines shall include narcotics and psychotropic substances as listed under the Sixth Schedule to these regulations.
	(2) The Controlled Veterinary Drugs shall be sold, dispensed or supplied in pharmacy.
	(3) A person shall not acquire, use, possess, manufacture, or supply medicines or substances for sale of Controlled Veterinary Medicine unless he possesses a licence or a permit issued by the Authority.
Import permit	26.(1) The Authority shall not issued a permit to import Controlled veterinary medicines to any person unless he:-
	(a) apply for the import permit to import contolled veterinary medicine to the Authority;
	(b) submits annual consumption estimates of quantities to be consumed or to be utilized for the manufacture of other medicines or preparations, stocks of medicines to be held from 31st December of the year to which the estimates relate; or
Records of controlled veterinary medicine	27.(1) The manufacturers, wholesalers, importers, distributors, scientists, scientific institutions and veterinary centres or clinics, shall keep such records to show the quantities of each controlled veterinary medicine aquired, used and disposed.
	(2) The records referred to in subregulation (1) shall be kept for the purpose of inspection and be preserved for a period not less than two years.
	(3) The destruction of controlled drugs shall be authorised and supervised by the Authority.
Package	28. Any person who supplies medicine shall ensure that is packed in such a way that its primary pack is so sealed that, when the seal is broken, it is easily distinguished from other sealed primary packs.

Storage of Controlled veterinary medicine	29. The veterinary medicines under these schedules are subject to safe custody requirements and shall be stored in a locked receptacle, appropriate controlled medicines cabinet or approved safe, which shall only be opened by the person in lawful possession of the Controlled Medicines or a person authorised by that person.
Prescription and administration	30. (1) Authorised prescribers shall write the prescriptions in triplicate official prescriptions one of which shall be retained in the counterfoil book. (2) Controlled veterinary medicines shall be administered to an animal by a veterinarian in person when performing treatment.
Prescription-only veterinary medicines	31.-(1) The Authority shall group a category of medicines to be known as Prescription only Veterinary Medicine as listed under the Seventh Schedule to these regulations. (2) Prescription Only Veterinary Medicines shall include; <ul style="list-style-type: none"> (a) Medicine for a diagnosis of the condition for which its administration is beyond the competence of the livestock owner and therefore requires the service of a registered professional or enrolled/enlisted paraprofessionals; (b) Medicine which its administration must be done by a professional or paraprofessional, that is when the route of administration is parenteral and the animal needs to be monitored by the professional or paraprofessional in person. (c) Medicine which is classified as potential for misuse by farmers (e.g. indiscriminate use of oxytetracycline); (d) Medicine which its administration changes/alters significantly the animal physiology, causes severe adverse reactions and requires monitoring of the patient by a veterinarian or (e.g. the use of anticoagulants); (e) Medicine which are highly toxic (narrow therapeutic index) and the dose/toxicity level is finely balanced; (f) veterinary biological products which may require special storage conditions (e.g. vaccine to balance treatment regimens)
	(2) No person shall sell by retail or supply in circumstances corresponding to retail sale a Prescription only Veterinary Medicine except by a prescription given by a veterinarian or any other authorized person.
	(3) No person other than a pharmacist or Veterinarian dispensing a legal prescription shall sell Prescription only Veterinary medicines.
	(4). Notwithstanding the provisions of sub-regulation (3), where an authorized seller of medicine has reasonable cause to believe that a person ordering any prescription medicine to these Regulations is a veterinarian or any other authorized person, who because of some emergency unable to furnish the prescription, may dispense the medicine provided that such prescription shall be

	furnished to him within the next twenty-four hours.
	(5) Notwithstanding sub-regulation (4), any subsequent supply of prescription medicine shall not be allowed unless the first prescription has been issued.
Pharmacy only veterinary Medicine	32.-(1) The Authority shall group a category of medicines to be known as Pharmacy Only Medicine as listed under the Eighth Schedule to these regulations.
	<p>(2) Pharmacy Only Medicine shall include;</p> <ul style="list-style-type: none"> (a) Medicine that can with reasonable safety be sold or supplied under the supervision of a pharmacist. All aspects of the safety of the drug and drug products are relevant factors to be considered; (b) Medicine which are not suitable for sale under the general sales list for animals but which do not meet the criteria for classification as prescription medicine or controlled drugs; (c) Medicine which are for food-producing animals but need no special precaution against the potential risk to the person administering the product; (d) Medicine that require advice on the probability of undesirable effects and interaction with widely veterinary drugs; (e) Medicine or compounds are prepared at a pharmacy after a prescription from a veterinarian; (f) biologicals announced for use in endemic areas and require special storage conditions or unusual requirements for safe disposal by the person administering the Medicine.
	(3) Pharmacy only veterinary medicine may not require a prescription and shall not be available for self-selection from the pharmacy shelf.
	(4) Pharmacy only veterinary medicines shall be sold by a person who is a registered veterinarian or pharmacist who knows or has reasonable cause to believe that a person who is buying such medicine has an animal and uses that product for the treatment of his animal concerned.
	(5) The Pharmacy only Veterinary may be sold in ADDO.
General sales veterinary medicines	33.-(1) The Authority shall group a category of medicines to be known as General Sales Medicines as listed under the Ninth Schedule to these regulations.
	<p>(2). General Sales Medicines shall include;</p> <ul style="list-style-type: none"> (a) Medicines which require no specific technical advice concerning their method of use; (b) Medicines that poses no significant risk to the animal being treated, the person administering the substance, the consumer or the environment; (c) Medicines which can be sold to a person who the registered veterinarian/pharmacist knows or has reasonable cause to believe that the person has an animal in his or her charge and will use that product for the treatment of his or her animal concerned;

	(d) Medicines which are usually very safe and stable;and (e) Medicines meant to treat minor ailments or symptoms
ADDO veterinary medicines	34.- The Authority shall group a category of medicines to be known as ADDO veterinary medicines as listed under the tenth Schedule to these regulations.
Stocked of Veterinary Medicine	35.-(1) All Veterinary Medicines shall be stocked in registered premises including warehouses, veterinary clinics and private pharmacies to which members of the public and unauthorized persons shall not access without permission of an authorized pharmacist or veterinarian.
Revocation and saving provision G.N 63 of 2015	36.-(1) The Tanzania Medicines and Medical Devices (Scheduling of Medicines) Regulations, 2015 is hereby revoked.
	(2) All matters, orders, decisions or any act made under the revoked Regulations shall be deemed to be made under these Regulations.

SCHEDULES

FIRST SCHEDULE

(Made under regulation 11(1))

CONTROLLED HUMAN MEDICINE

Narcotic drugs and substances

1-cyclohexyl-4-(1,2-diphenylethyl)piperazine (MT-45)

1-methyl-4-phenyl-4-propionoxypiperidine Myrophine

2-methyl AP-237

3,4-dichloroN-{[1-(dimethylamino)cyclohexyl]methyl}

benzamide (AH-7921)

3-methylfentanyl

3-methylthiofentanyl

4-Fluoroisobutyrfentanyl (4-FIBF, pFIBF)

Acetorphine

Acetyl-alpha-methylfentanyl Acetylmethadol

Acetyldihydrocodeine

Acryloylfentanyl (Acrylfentanyl)

Alfentanil

Allylprodine

Alphacetylmethadol

Alphameprodine

Alphamethadol

Alpha-methylfentanyl

Alpha-methylthiofentanyl

Alphaprodine

Anileridine

Benzethidine

Benzylmorphine

Betacetylmethadol

Beta-hydroxy-3-methylfentanyl

Beta-hydroxyfentanyl

Betameprodine

Betamethadol

Betaprodine

Bezitramide

Brorphine

Butonitazene

Butyrfentanyl

Cannabis

Cannabis resin and extract and tinctures of cannabis

Carfentanil

Clonitazene

Coca leaf

Cocaine

Codeine

Codoxime

Concentrate of pop straw rich in all varieties

Concentrate of pop straw rich in codeine
Concentrate of pop straw rich in morphine
Concentrate of pop straw rich in thebain
Crotonylfentanyl
Cyclopropylfentanyl
Desomorphine and its salts
Dextromoramide and its salts and its isomer
Diampromide
Diaphetyl butyrate
Diethylthiambutene
Difenoxin
Dihydrocodeine
Dihydroetorphine
Dihydromorphine
Dimenoxadol
Dimepheptanol
Dimethylthiambutene
Diphenoxylate
Dipipanone
Drotebanol
Ecgonine
Etazene
Ethylmethylthiambutene
Ethylmorphine
Etonitazene
Etonitazepyrone
Etorphine
Etoxadine
Fentanyl
Furanyl fentanyl
Furethidine
Heroin
Hydrocodone
Hydromorphanol
Hydromorphone
Hydroxypethidine
Isomethadone
Isotonitazene
Ketamine and its salts
Ketobemidone
Levomethorphan
Levomoramide
Levophenacetylmorphan
Levorphanol
Metazocine
Methadone
Methadone intermediate
methobromide
Methoxyacetylfentanyl
Methyldesorphine

Methyldihydromorphine
Metonitazene
Metopon (5-methylhydromorphone)
Moramide intermediate
Morpheridine
Morphine
Morphine-N-oxide
Nalbuphine hydrochloride

Narcotic drugs in their original form

Nicocodine
Noracymethadol
Norcodeine
Norfentanyl
Norlevorphanol
Normethadone
Normorphine
Norpipanone
Ocfentanil
Opium
Oripavine
Orthofluorofentanyl
Oxycodone
Oxymorphone
Parafluorobutyrylfentanyl
Para-fluorofentanyl
Pethidine
Pethidine intermediate A
Pethidine intermediate B
Pethidine intermediate C
Phenadoxone
Phenampromide
Phenazocine
Phenethyl-4-phenyl-4-piperidinol acetate (PEPAP)
Phenomorphan
Phenoperidine
Pholcodine
Piminodine
Piritramide
Proheptazine
Propерidine
Propiram
Protonitazene
Racemethorphan
Racemoramide
Racemorphan
Remifentanil
Sufentanil
Tetrahydrofuranfentanyl (THF-F)
Thebacon

Thebaine
 Thiofentanyl
 Tilidine
 Trans-3,4-dichloro-N-[2-(dimethylamino)cyclohexyl]-N-methylbenzamide (U-47700)
 Trimeperidine
 Valeryl fentanyl

Preparations of narcotic drugs exempted from controls (drugs containing narcotics in their original form in low strength)

- i. *Preparation compounded with one or more ingredients and containing not more than 2.5 percent undivided preparations;*

Acetyldihydrocodeine

Codeine.

Dihydrocodeine

Ethylmorphine

Nicodicodine

Norcodine

Phocoldine

- i. *Cocaine;*

Containing not more than 0.1 per cent of cocaine calculated as cocaine base and preparation of opium or morphine containing not more than 0.2 per cent of morphine calculated as anhydrous morphine base and compounded with one or more other ingredients and in such way that the drug cannot be recovered by readily applicable means or in a yield which would constitute a risk to public health.

- ii. *Dextropropoxyphene:*

For oral use containing not more than 135 milligrams of dextropropoxyphene base per dosage unit or with a concentration of not more than 2.5 per cent in undivided preparations.

- iii. *Difenoxin:*

Containing, per dosage unit, not more than 0.5 milligrams of difenoxin and a quantity of atropine sulfate equivalent to at least 5 per cent of the dose of difenoxin.

- iv. *Diphenoxylate:*

Containing, per dosage unit, not more than 2.5 milligrams of diphenoxylate is calculated as a base and a quantity of atropine sulfate equivalent to at least 1 per cent of the dose of diphenoxylate.

- v. *Propiram*

Containing not more than 100 milligrams of propiram per dosage unit and compounded with at least the same amount of methylcellulose.

- vi. *Pulvis ipecacuanhae et opii compositus,*

Containing 10 per cent opium in powder, or 10 per cent ipecacuanha root, in powder well mixed with 80 per cent of any other powdered ingredient containing no drug.

Psychotropic substances with limited medical values

(+)-lysergide (LSD, LSD-25)

(±)-2,5-dimethoxy-α-methylphenethylamine (DMA)

(±)-4-ethyl-2,5-dimethoxy-α-phenethylamine (DOET)

(±)-n,α-dimethyl-3,4-(methylenedioxy)phenethylamine (mdma)

(±)-n-[α-methyl-3,4-(methylenedioxy)phenethyl]hydroxylamine (n-hydroxy MDA)

(±)-n-ethyl-α-methyl-3,4-(methylenedioxy)phenethylamine (N-ethyl MDA)

2-fluorodeschloroketamine

2-methoxy-α-methyl-4,5-(methylenedioxy)phenethylamine (MMDA)

3-(1,2-dimethylheptyl)-7,8,9,10-tetrahydro-6,6,9-trimethyl-6h-dibenzo[b,d]pyran-1-ol (DMHP)

3-[2-(diethylamino)ethyl]indole (DET)

3-chloromethcathinone (3-CMC)
 3-Methoxyphencyclidine
 3-Methylmethcathinone
 4-CMC (4-chloromethcathinone; clephedrone)
 4-F-MDMB-BINACA (N-[[1-(4-fluorobutyl)-1H-indazol-3-yl]carbonyl]-3-methyl-L-valine, methyl ester)
 4-methylaminorex
 4-MTA alpha methyl 4 methylphenethylamine
 ADB-BUTINACA, N-[1-(Aminocarbonyl)-2,2-dimethylpropyl]-1-butyl-1H-indazole-3-carboxamide
 ADB-CHMINACA (MAB-CHMINACA)
 Brolamfetamine
 bromazolam
 Cathinone
 Clonazolam
 CUMYL-4CN-BINACA
 Cumyl-Pegaclone
 Diclazepam
 dipentylone
 Diphenidine
 Eticyclidine (PCE)
 Etizolam
 Etryptamine
 Eutylone
 Flualprazolam
 Flubromazolam
 FUB-AMB (MMB-FUBINACA, AMB-FUBINACA)
 Lisdexamfetamine
 Mescaline
 Methamphetamine
 Methyl 3,3-dimethyl-2-(1-(pent-4-en-1-yl)-1H-indazole-3-carboxamido)butanoate (Other name: MDMB-4en-PINACA)
 N-ethylhexedrone
 N-ethylnorpentylone (ephylone)
 N-hydroxy MDA
 oliceridine
 Parahexyl
 Parahexyl
 p-methoxy-alpha-methylphenethylamine (PMA)
 Psilocine
 Psilocybine
 Psilotsin
 Rolicyclidine
 STP, DOM [(2,5-Dimethoxy-4-methylamphetamine)]
 Tapentadol
 Tenocyclidine.

α -Pyrrolidinohexiophenone (α -PHP)

α -Pyrrolidinoisohexanophenone (α -PiHP)

Psychotropic substances with moderate or high therapeutic values

Allobarbitol

Alprazolam

Amfepramone (Diethylpropion)

Amfetamine

Amineptine

Aminorex

Amobarbital

Barbital

Benzfetamine (Benzphetamine)

Bromazepam

Brotizolam

Buprenorphine

Butalbital

Butobarbital

Camazepam

Cathine

Chlordiazepoxide

Clobazam

Clonazepam

Clorazepate

Clotiazepam

Cloxazolam

Cyclobarbitol

Delorazepam

Dexamfetamine

Diazepam

Dronabinol

Estazolam

Ethchlorvynol

Ethinamate

Ethylloflazepate

Etilamfetamine (N-ethylamfetamine)

Fencamfamin

Fenetylline

Fenproporex

Fludiazepam

Flunitrazepam

Flurazepam

Glutethimide

Halazepam

Haloxazolam
Ketazolam
Lefetamine
Levamphetamine
Lisdexamfetamine and salts and isomers and derivatives
Loprazolam
Lorazepam
Lormetazepam
Mazindol
Mecloqualone
Medazepam
Mefenorex
Meprobamate
Mesocarb
Metamphetamine racemate
Methamphetamine and salts and isomers and derivatives
Methaqualone
Methylphenobarbital
Methypylon
Midazolam
Nimetazepam
Nitrazepam
Nordazepam
Oliceridine and its salts
Oxazepam
Oxazolam
Pemoline
Pentazocine
Pentobarbital
Phencyclidine
Phendimetrazine
Phenmetrazine
Phenobarbital
Phentermine
Pinazepam
Pipradrol
Prazepam
Pyrovalerone
Secbutabarbital
Secobarbital
Tapentadol and its salts
Temazepam
Tetrazepam
Triazolam

Vinylbital
Zipeprol
Zolpidem

Precursors used in the manufacturing of controlled drugs

1-Phenyl-2-propanone
3,4-Methylenedioxyphenyl-2-propanone
Acetic anhydride
Acetone
Anthranilic acid
dipentylone
Diphenidine
Ephedrine
Ergometrine
Ergotamine
Ethyl ether Hydrochloric acid
Isosafrole
Lysergic acid
Methyl ethyl ketone
N-acetylanthranilic acid
Norephedrine
Phenylacetic acid
Piperidine
Potassium permanganate
Safrole

SECOND SCHEDULE

(Made under regulation 18(1))

PRESCRIPTION ONLY HUMAN MEDICINE

2,4-dinitrophenol and its salts and derivatives

4-amino-pteroyl aspartic acid and its salts

4-aminosalicylic acid and its salts

5-aminosalicylic acid

Abacavir and its salts

Abaloparatide and its salts

Abametapir

Abciximab

Abelacimab

Abemaciclib and its salts

Abivertinib

Abrocitinib and salts

Acalabrutinib and its salts

Acamprosate (gaba agonist)

Acarbose and its derivatives

Acebutolol and its salts

Acetazolamide

Acetic acid

Acetohexamide

Acetohydroxamic acid

Acetylcarbromal

Acetylcholine chloride

Acetylcysteine intravenous solution

Acetylsalicylic acid and its salts

Acitretin

Acitretin and its salts and derivatives

Aclidinium and its salts

Aconiazide and its salts

Acyclovir and its salts

Adagrasib

Adalimumab

Adapalene and its salts and derivatives

Adefovir dipivoxil

Adenosine and its salts

Adrenocortical hormones and their salts and derivatives

Adriforant
Afamelanotide
Afatinib dimaleate
Alclometasone dipropionate
Aldesleukin
Alectinib
Alendronate sodium
Alendronic acid and its salts
Alfacalcidol
Alfuzosin and its salts
Alirocumab
Aliskiren hemifumarate
Alitretinoin
Allergy serums
Allylisopropylacetylurea
Almotriptan malate
Alogliptin benzoate
Alosetron hydrochloride
Alpelisib
Alpha-chloralose
Alphadolone and its salts
Alphaxalone
Alprostadil injectable
Alteminostat
Altrenogest
Altretamine
Alverine and its salts
Alvimopan
Amantadine and its salts
Amбенonium chloride
Ambrisentan
Amcinonide
Amelparib
Amfebutamone (bupropion) and its salts
Amifampridine
Amifostine and its salts
Amikacin and its salts and derivatives
Amiloride and its salts
Amino acids injectable solutions
Aminogluthethimide

Aminolevulinic acid and its salts and derivatives
Aminophylline (except for oral and inhaler dosage forms)
Aminopromazine (proquamezine) and its salts
Aminopterin and its salts
Aminopyrine and its derivatives
Amiodarone and its salts
Amisulpride
Amitriptyline and its salts
Amivantamab
Amlexanox and its salts and derivatives
Amlivirsen
Amlodipine and its salts
Ammonium bromide
Amoxapine
Amoxicillin and its salts and derivatives
Amphetamine and its salts
Amphotericin B and its salts and derivatives
Ampicillin and its salts and derivatives
Amprexetine
Amprenavir and its salts and derivatives
Amrinone and its salts
Amsacrine and its salts
Amyl nitrite and its salts
Anacaulase-bcdb
Anagrelide and its salts
Anastrozole
Ancestim
Angiotensin ii
Anidulafungin
Anileridine
Ansuvimab-zykl
Antipyrine
Antiscorpion venom
Antisnake venom
Apalutamide
Apixaban
Apraclonidine and its salts
Apramycin and its salts
Apremilast
Aprepitant

Aprocitentan
Aprotinin
Arformoterol tartrate
Argatroban and its salts and derivatives
Aripiprazole lauroxil
Armodafinil
Arsenic trioxide
Artemisia, its preparations, extracts and compounds
Artesunate and its derivatives
Articaine hydrochloride
Asalhydromorphone
Asciminib hydrochloride
Asenapine
Asfotase alfa
Atazanavir
Atenolol and its salts
Atezolizumab
Aticaprant
Atogepant
Atoltivimab,
Atomoxetine
Atomoxetine hydrochloride
Atorvastatin and its salts
Atovaquone
Atracurium besilate
Atropine and its salts (in ophthalmic or parenteral preparations)
Auranofin
Aurothioglucose
Avacincaptad pegol
Avacopan
Avanafil
Avapritinib
Avasopasem manganese
Avatrombopag
Avelumab
Avoplace
Azacitidine
Azactam
Azacyclonol and its salts
Azaribine

Azatadine and its salts
Azathioprine and its salts
Azelafrag
Azelafrag hydrochloride
Azilsartan medoxomil
Azithromycin and its salts and derivatives
Azlocillin and its salts and derivatives
Aztreonam and its salts
Bacitracin and its salts and derivatives (for parenteral use)
Baclofen and its salts
Baloxavir marboxil
Baloxavir marboxil
Balsalazide disodium
Bamadutide
Bambuterol and its salts
Baricitinib and its salts
Basiliximab
Bazedoxifene acetate
Becaplermin
Beclomethasone dipropionate
Bedaquiline and its salts
Bedaquiline fumarate
Belantamab mafodotin-blmf
Belzutifan
Bemegride
Bempezoic acid
Bempegaldesleukin
Benactyzine and its salts
Benazepril and its salts and derivatives
Benazepril hydrochloride
Bendamustine
Bendazac and its salts
Benoxaprofen and its salts
Benralizumab
Benserazide and its salts
Benzathine penicillin and its salts and derivatives
Benznidazole
Benzoyl peroxide (in concentrations greater than 5% or when sold in combination with another medicinal ingredient)
Benzphetamine hydrochloride

Benztropine and its salts
 Benzydamine and its salts
 Bepotastine besilate
 Beractant
 Berdazimer and its salts
 Berotralstat hydrochloride
 Besifloxacin hydrochloride
 Betahistine and its salts

 Betaine and its salts (when sold or recommended for the treatment of homocystinuria)

 Betaxolol and its salts
 Betamethasone and its salts and its derivatives
 Bethanechol chloride
 Bethanidine and its salts
 Betrixaban
 Bevifimod
 Bexagliflozin
 Bexarotene
 Bezafibrate and its salts and derivatives
 Bezlotoxumab
 Bicalutamide
 Bictegravir
 Bimekizumab
 Binimetinib
 Bintrafusp alfa
 Biperiden and its salts
 Birch triterpenes
 Birtamimab
 Bishydroxycoumarin and its salts and derivatives
 Bismuth subcitrate potassium; metronidazole; tetracycline hydrochloride
 Bisoprolol and its salts
 Bitolterol and its salts
 Bivalirudin
 Bleomycin
 Boldenone
 Bortezomib
 Bosentan and its salts and derivatives
 Bosutinib
 Botulinum toxin type A
 Bremelanotide

Bretylum tosylate
Brexanolone
Brexpiprazole
Brigatinib
Brilaroxazine
Brilliant blue G ophthalmic solution
Brimonidine tartrate
Brincidofovir
Brinzolamide
Brivaracetam
Brodalumab
Brolucizumab-dbl
Bromal hydrate
Brometone
Bromfenac sodium
Bromisoval
Bromocriptine and its salts
Bromoform
Brompheniramine maleate; dextromethorphan hydrobromide; pseudoephedrine hydrochloride syrup;
oral
Budesonide
Budigalimab
Budosenide
Bumetanide and its salts and derivatives
Bupivacaine and its salts
Bupivacaine hydrochloride; epinephrine injectable; injection
Buprenorphine and its salts
Bupropion (see amfebutamone and its salts)
Burosumab-twza
Buserelin and its salts
Buspirone and its salts
Busulfan
Butalbital
Butaperazine and its salts
Butoconazole and its salts
Butorphanol
Butyl chloral hydrate
Cabazitaxel
Cabergoline and its salts
Cabotegravir

Cabozantinib
 Calaspargase pegol-mknl
 Calcifediol
 Calcipotriene
 Calcipotriol
 Calcitonin
 Calcitriol
 Calcium bromide
 Calcium bromolactobionate
 Calcium carbimide
 Calcium chloride in injectable form for parenteral use
 Calcium gluconate in injectable form for parenteral nutrition
 Calcium oxybate; magnesium oxybate; potassium oxybate; sodium oxybate solution;oral
 Camsirubicin
 Canagliflozin
 Candesartan and its salts and derivatives
 Candicidin and its salts and derivatives
 Cangrelor
 Cannabidiol
 Cantharidin
 Capecitabine and its salts and derivatives
 Capivasertib
 Caplacizumab-yhdp
 Capmatinib
 Capsaicin
 Captodiamine and its salts
 Captopril and its salts
 Carbachol
 Carbamazepine
 Carbenicillin and its salts and derivatives
 Carbenoxolone and its salts
 Carbetocin
 Carbetocin and its salts
 Carbidopa and its salts
 Carbimazole
 Carbinoxamine
 Carbocysteine
 Carboplatin
 Carboprost tromethamine

Carbromal
 Carfilzomib
 Carglumic acid
 Cariprazine
 Cariprazine
 Carisoprodol
 Carmustine
 Carphenazine and its salts
 Carteolol
 Carvedilol and its salts
 Casimersen
 Caspofungin and its salts and derivatives
 Cefaclor
 Cefdinir and its salts and derivatives
 Cefepine and its salts and derivatives
 Cefiderocol
 Cefonicide and its salts
 Cefoperazone and its salts and derivatives
 Cefprozil and its salts and derivatives
 Ceftaroline fosamil
 Ceftazidime-avibactam
 Ceftributen and its salts and derivatives
 Ceftobiprole medocaril sodium
 Ceftolozane sulfate
 Ceftriaxone+sulbactam
 Cefuroxime
 Cefuroxime and its salts
 Celecoxib and its salts (nsaids)
 Cemiplimab
 Cemiplimab-rwlc
 Cenegermin-bkbj
 Cenobamate
 Centella asiatica extract and active principles
 Cenupatide
 Cephalosporin C and its salts and derivatives
 Ceralasertib
 Cerliponase alfa

 Cetirizine and its salts (in concentrations greater than 8.5 mg cetirizine base per dosage unit)
 Cetirizine hydrochloride intravenous solution

Cetrorelix acetate
 Cevimeline hydrochloride
 Chenodiol
 Chloral hydrate (oral)
 Chloralformamide
 Chloralimide
 Chlorambucil and its salts and derivatives
 Chloramphenicol and its salts and derivatives
 Chlorcyclizine and its salts (except in preparations for external use only)
 Chlordiazepoxide hydrochloride
 Chlorhexidine and its salts (when used as a topical oral preparation)
 Chlorisondamine and its salts
 Chlormezanone
 Chlorodehydromethyltestosteron
 Chloroquine and its salts
 Chlorotestosterone
 Chlorothiazide and its salts and derivatives
 Chlorpheniramine maleate; codeine phosphate
 Chlorpromazine hydrochloride
 Chlorprothixene and its salts
 Chlorthalidone
 Cholestyramine resin
 Cholic acid
 Choline salicylate (when sold in combination with magnesium salicylate)
 Choline theophyllinate
 Chorionic (human)

 Chromium chloride (chromic chloride) in injectable form for parenteral nutrition

 Ciclesonid
 Ciclopirox and its salts
 Cidofovir
 Cilastatin and its salts
 Cilazapril and its salts and derivatives
 Cilostazol

 Cimetidine and its salts (except when sold in concentrations of 100mg or less per unit dose)

 Cimlanod
 Cinacalcet hydrochloride
 Cinoxacin
 Cintirorgon

Cipaglucosidase alfa-atga
Ciprofloxacin and its salts
Cisapride and its salts
Cisatracurium besilate
Cisplatin
Citalopram and its salts
Citric acid; gluconolactone; magnesium carbonate solution
Citric acid; lactic acid; potassium bitartrate gel
Cladribine and its salts
Clarithromycin and its salts and derivatives
Clascoterone
Clenbuterol and its salts
Clevidipine
Clidinium bromide
Clindamycin and its salts and derivatives
Clobetasol propionate
Clocortolone pivalate
Clodronic acid and its salts
Clofarabine
Clofibrate
Clomiphene and its salts
Clomipramine and its salts
Clonazepam and its salts
Clonidine and its salts
Clopidogrel and its salts
Cloprostenol and its salts and derivatives
Clorazepate dipotassium
Clorazepic acid and its salts
Clostebol
Clotrimazole and its salts (except preparations for topical use)
Cloxacillin and its salts and derivatives (injectable preparations)
Clozapine and its salts
Cobicistat
Cobimetinib
Coblopassvir
Colchicine
Colesevelam hydrochloride
Colestipol and its salts
Colfosceril and its derivatives
Colistimethate sodium

Colistin and its salt and derivatives
 Conivaptan hydrochloride
 Copanlisib
 Copper Cu 64 dotatate injection
 Copper sulfate in injectable form for parenteral nutrition
 Corticotrophin
 Cosyntropin
 Cotadutide
 Crisaborole
 Crizanlizumab-tmca
 Crizotinib
 Crofelemer
 Cromoglycic acid and its salts (except in concn. Of 2% or less, in solns for ophthalmic or intranasal use)
 Crovalimab
 Crovalimab
 Cupric sulfate; manganese sulfate; selenious acid; zinc sulfate
 Cyclandelate (for cerebrovascular disorders)
 Cyclizine
 Cyclobenzaprine and its salts
 Cyclopentolate and its salts (in preparations for parenteral or ophthalmic use, except when sold for use in diagnostic procedures to an optometrist)
 Cyclophosphamide
 Cycloserine
 Cyclosporine
 Cyproheptadine hydrochloride
 Cyproterone and its derivatives
 Cysteamine and its salt
 Cytarabine and its salts
 Dabigatran etexilate mesylate
 Dabrafenib mesylate
 Dacarbazine
 Daclatasvir
 Daclizumab
 Dacomitinib
 Dactinomycin
 Dalbavancin
 Dalfampridine
 Dalfopristin and its salts
 Dalteparin and its salts

Danaparoid and its salts and derivatives
Danazol
Danicopan
Dantrolene and its salts
Dapagliflozin
Dapiprazole and its salts
Dapivirine vaginal ring
Daprodustat
Dapsone
Daptomycin
Daratumumab
Daridorexant
Darifenacin
Darolutamide
Darunavir
Dasatinib
Dasiglucagon
Daunorubicin and its salts
Daxibotulinumtoxin A
Deanol and its salts and derivatives
Debrisoquin and its salts
Decitabine and cedazuridine
Deferasirox
Deferiprone
Deferoxamine and its salts
Defibrotide sodium
Deflazacort
Degarelix
Dehydrochlormethyltestosterone
Delafloxacin
Delamanid
Delavirdine and its salts
Demeclocycline
Deoxycholic
Dersimelagon
Deserpidine and its alkaloids and salts
Desflurane
Desipramine and its salts
Desmopressin and its salts
Desogestrel

Desonide
Desoximetasone
Desvenlafaxine
Detomidine and its salts
Deucravacitinib
Deutetrabenazine
Dexfenfluramine and its salts
Dexketoprofen
Dexlansoprazole
Dexmedetomidine
Dexmethylphenidate
Dexrazoxane and its salts
Dextroamphetamine
Dextroamphetamine (d-amphetamine)
Dextrose injection
Diatrizoate
Diazoxide and its salts
Dichloroacetic acid
Dichlorphenamide
Diclofenac and its salts (injectable)
Dicloxacillin and its salts and derivatives
Didanosine and its salts and derivatives
Dienogest
Diethylbromacetamide
Diethylcarbamazine and its salts
Diethylstilbestrol and its derivatives
Difelikefalin
Diflorasone
Difloxacin and its salts and derivatives
Diflunisal
Difluprednate
Digitalis lanata and its glycosides
Digitalis purpurea and its glycosides
Digoxin immune fab (ovine)
Dihydroergotamine
Dihydrostreptomycin and its salts and derivatives
Dihydrotachysterol
Dihydrotestosterone
Diiodohydroxyquin (except in preparations for topical use on the skin)
Dilanubicel

Dilpacimab
Diltiazem and its salts
Dimercaprol
Dimethyl sulfoxide
Dinoprostone and its salts and derivatives
Dinutuximab
Diphenidol and its salts
Diphenylhydantoin (phenytoin) and its salts
Diphtheria toxoid vaccine
Dipivefrin and its salts
Diprophylline and its salts
Dipyridamole
Dirithromycin
Diroximel
Disopyramide and its salts
Disulfiram
Divalproex
Dobutamine and its salts
Docetaxel and its derivatives
Dofetilide
Dolasetron and its salts
Dolutegravir
Domperidone
Donanemab
Donepezil and its salts
Dopamine and its salts
Doravirine
Dornase alfa
Dorzolamide and its salts
Dostarlimab
Doxacurium chloride
Doxapram
Doxazosin and its salts
Doxercalciferol
Dromastanolone di-propionate
Dronedarone
Drospirenone
Droxidopa
Duloxetine
Dupilumab

Durlobactam
Durvalumab
Dutasteride
Duvelisib
Echthiophate
Edaravone and its salts
Edoxaban and its salts
Efavirenz
Efbemalenograstim alfa-vuxw
Efinaconazole
Eflapegrastim
Eflornithine
Eftozanermin alfa
Elacestrant
Elafibranor
Elagolix sodium
Elapegademase-lvlr
Elbasvir and grazoprevir
Eletriptan
Elexacaftor
Eliglustat
Elopultide
Elotuzumab
Elranatamab-bcmm
Eltrombopag
Eluforsen
Eluxadoline
Elvitegravir
Emapalumab-lzsgemapalumab-lzsg
Embitcitabine
Emicizumab
Empagliflozin
Emtricitabine
Emtricitabine
Enasidenib
Encequidar
Encorafenib
Enfortumab vedotin-ejfv
Enfuvirtide
Enmetazobactam

Enoxaparin and its salts

Enrofloxacin

Ensifentrine

Ensifentrine

Entacapone

Entacapone

Entecavir

Entrectinib

Enzalutamide

Epcoritamab-bysp

Ephedrine and its salts (in preparations containing more than 8 mg per unit dose or with a label recommending more than 8 mg per dose or 32 mg per day, or labelled or implied for use exceeding 7 days, or if indicated for other than nasal congestion)

Epinastine

Epinephrine and its salts (other than in pre-filled syringes intended for emergency administration by injection in the event of anaphylactic reactions to allergens)

Epirubicine and its salts

Eplerenone

Eplontersen

Epoprostenol and its salts

Eprosartan and its salts and derivatives

Epsiprantel

Eptifibatide and its salts

Eptinezumab

Eravacycline

Erdafitinib

Erenumab

Erenumab

Ergoloid

Ergot alkaloids and their salts

Ergotamine tartrate

Eribulin

Erlotinib

Ertapenem

Ertugliflozin

Erythrityl tetranitrate

Erythromycin

Erythromycin and its salts and derivatives

Erythropoietin

Escitalopram
Esketamine
Esmolol and its salts
Esomeprazole and its salts
Estramustine and its salts
Estrogens (for replacement therapy cancer and contraception)
Estropipate
Eszopiclone
Etalafenamide
Etancercept
Etelcalcetide
Eteplirsen
Ethacrynate
Ethacrynic acid
Ethambutol and its salts
Ethchlorvynol ethinamate
Ethiodized
Ethionamide and its salts
Ethomoxane and its salts
Ethopropazine and its salts (profenamine and its salts)
Ethosuximide
Ethotoin and its salts
Ethyl trichloramate
Ethylestrenol
Ethylpapaverine and its salts
Ethynodiol
Etidronic acid and its salts
Etodolac and its salts and derivatives
Etonogestrel
Etoposide and its derivatives
Etoricoxib and its salts
Etrasimod
Etravirine
Etreinate
Etryptamine and its salts
Etymemazine and its salts
Everolimus
Evolocumab
Exemestane
Exenatide

Exicorilant
Ezetimibe
Famciclovir and its salts

Famotidine and its salts (except in oral preparations containing 10 mg or less per dosage unit)

Fam-trastuzumab deruxtecan-nxki
Faricimab-svoa
Favipiravir
Febuxostat
Fedratinib
Felbamate
Felodipine and its salts
Fenfluramine and its salts
Fenofibrate
Fenoldopam
Fenoprofen and its salts
Fenoterol and its salts
Ferric maltol
Ferumoxytol
Fesoterodine
Fexinidazole
Fexofenadine
Fezolinetant
Fidaxomicin
Filgrastim
Finasteride
Fingolimod
Fish oil triglycerides
Flavoxate and its salts
Flecainide and its salts
Fleroxacin and its salts and derivatives
Flibanserin
Floctafenine
Florbetaben f-18
Florfenicol and its derivatives
Flortaucipir f18
Flotufolastat f 18
Fluciclovine f 18
Flucloxacillin
Flucloxacillin + amoxicillin

Fluconazole
 Flucytosine
 Fludarabine and its salts and derivatives
 Flumazenil
 Flunarizine and its salts
 Flunisolide
 Flunixin and its salts and derivatives
 Fluocinonide
 Fluorescein
 Fluoride and its salts (in solid oral dosage forms containing more than 1 mg of fluoride ion)
 fluorouracil and its derivatives
 Fluorodopa f 18
 Fluoroestradiol f18
 Fluoxetine and its salts
 Fluoxymesterone
 Flupentixol and its salts and derivatives
 Fluphenazine and its salts
 Fluprostenol and its salts and derivatives
 Flurandrenolide
 Flurbiprofen and its salts
 Fluspirilene
 Flutamide
 Fluvastatin and its salts and derivatives
 Fluvoxamine and its salts

 Folic acid (in preparations containing more than 1.0 mg of folic acid per dosage form, or where the largest recommended daily dosage shown on the label would, if consumed by a person, result in a daily intake by that person of more than 1.0 mg of folic acid)

 Folinic acid and its salts
 Follicle stimulating hormone (human)
 Fomepizole and its salts
 Fondaparinux
 Formebolone
 Formestane and its salts and derivatives
 Formoterol fumarate
 Fosamprenavir
 Fosaprepitant
 Foscarnet sodium
 Fosdenopterin
 Fosfomycin and its salts

Fosinopril and its salts
Foslinanib
Fosmanogepix
Fosnetupitant and palonosetron
Fosphenytoin and its salts
Fostamatinib
Fostemsavir
Framycetin and its salts and derivatives
Fremanezumab
Frovatriptan
Fruquintinib
Fulvestrant
Furaltadone and its salts
Furazolidone and its salts
Furosemide
Fusidic acid and its salts
Futibatinib
Ga-68-dotatoc
Gabapentin and its salts and derivatives
Gadobenate
Gadobutrol
Gadodiamide
Gadopicleonol
Gadoterate
Gadoteridol
Gadoxetate
Galantamine and its salts and derivatives
Galcanezumab-gnlm
Galicaftr
Gallamine triethiodide
Gallium 68 psma-11
Gallium and its salts
Gallium ga 68 dotatate
Ganaxolone
Ganciclovir and its salts
Gancotamab
Ganirelix
Gatifloxacin
Gefitinib
Gemcitabine and its salts

Gemfibrozil and its salts
Gentamicin and its salts and derivatives
Gepirone
Gilteritinib
Givinostat
Givosiran
Glasdegib
Glatiramer and its salts
Glecaprevir and pibrentasvir
Gliclazide
Glimepiride
Glipizide
Glofitamab-gxbm
Glutethimide
Glyburide and its salts and derivatives
Glycopyrrolate
Glycopyrronium
Gold and its salts
Golexanolone
Golodirsen
Gonadorelin and its salts
Gonadotropin, serum (human)
Goserelin and its salts
Gosuranemab
Granisetron and its salts
Grepafloxacin and its salts and derivatives
Griseofulvin and its salts and derivatives
Guanethidine and its salts
Guanfacine
Guselkumab
Haemophilus influenza vaccine
Halazepam and its salt
Halcinonide
Halobetasol
Halofantrine and its salts
Haloperidol
Halothane heparin injection
Hepatitis A vaccine
Hepatitis B vaccine
Hetacillin and its salts and derivatives

Hexachlorophene and its salts
Hexacyclonate sodium
Hexamethonium and its salts
Hexaminolevulinate
Histrelin
Homatropine and its salts (for ophthalmic or parenteral use or in preparations for oral use containing more than 2 mg per dosage unit)
Human albumin
Human chorionic gonadotrophin
Hyaluronic acid and its salts
Hydralazine and its salts
Hydrochlorothiazide
Hydrocortisone (except as a single ingredient in topical preparations in concentrations of 0.5% or less)
Hydromethylthionine
Hydroxychloroquine
Hydroxypropyl
Hydroxyurea
Hyperpolarized xe-129
Iadademstat
Ibalizumab-uiyk
Ibandronate
Ibrutinib
Ibutilide
Icatibant
Icodextrin
Idarubicin
Idarucizumab
Idecabtagene vicleucel
Idelalisib
Ifosfamide
Ilginatib
Iloperidone
Iloprost
Imatinib and its salts imiglucerase
Imetelstat
Imipenem and its salts and derivatives
Imipenem, cilastatin and relebactam
Imipramine and its salts
Imiquimod and its salts indapamide and its salts

Inamrinone
Inclisiran
Indigotindisulfonate
Indinavir and its salts
Indomethacin infliximab
Inebilizumab-cdon
Inosiplex
Inotersen
Inotuzumab ozogamicin
Insulin degludec injection
Insulin interferon
Iodixanol
Iodochlorhydroxyquin (except in preparations for topical use on the skin)
Iohexol
Iopromide
Iothalamate meglumine
Ioversol
Ipratropium and its salts
Iproniazid and its salts
Iptacopan
Irbesartan and its salts
Irinotecan
Irinotecan and its salts
Iron derivatives (for parenteral use)
Isatuximab
Isavuconazonium sulfate
Isocarboxazid and its salts
Isoflurane
Isoniazid
Isopropamide and its salts
Isoproterenol (isoprenaline) and its salts
Isosorbide and its salts and derivatives
Isosulfan
Isotretinoin and its salts
Isoxsuprine and its salts isradipine and its salts
Istradefylline
Itraconazole and its salts ivermectin
Ivabradine
Ivacaftor
Ivosidenib

Ixabepilone
Ixazomib
Ixekizumab
Kanamycin and its salts and derivatives
Ketazolam and its salts
Ketoconazole and its salts (in preparations for topical use)
Ketoprofen and its salts
Ketotifen and its salts
Labetalol and its salts
Lacosamide
Lactic acid (when recommended for use by injection as a tissue sclerosing agent) lamivudine and its salts
Lactitol
Lamivudine
Lamotrigine and its salts
Lanadelumab
Lanreotide
Lansoprazole and its salts
Lanthanum carbonate
Lapatinib
Lapatinib ditosylate
Larotrectinib
Lasmiditan
L-asparaginase
Latanoprost
Latanoprostene bunod
Lecanemab-irmb
Ledipasvir
Lefamulin
Leflunomide and its salts
Lemborexant
Lenacapavir
Lenalidomide
Leniolisib
Lenvatinib
Lenzumestrocel
Leriglitazone
Lesinurad
Letermovir
Letibotulinumtoxina

Letibotulinumtoxina-wlbg
Letrozole
Leuprolide and its salts
Levalbuterol
Levallorphan and its salts
Levamisole and its salts
Levetiracetam
Levobunolol and its salts
Levocabastine and its salts and derivatives
Levocarnitine and its salts and derivatives
Levocetirizine
Levodopa
Levodopa and its salts
Levofloxacin
Levoketoconazole
Levoleucovorin
Levorphanol
Lifitegrast
Linacotide
Linagliptin
Lincomycin and its salts and derivatives
Linezolid and its salts
Liothyronine and its salts
Lipid solutions in injectable form for parenteral nutrition
Liraglutide
Lisdexamfetamine
Lisinopril and its salts and derivatives
Lisocabtagene
Lithium and its salts
Lixisenatide
Lodoxamide and its salts and derivatives
Lofexidine hydrochloride
Lomefloxacin and its salts
Lomitapide
Lomustine
Lonafarnib
Loperamide and its salts
Lopinavir
Loracarbef and its salts and derivatives
Lorazepam and its salts

Lorlatinib
 Losartan and its salts
 Losoxantrone and its salts
 Loteprednol
 Lotilaner
 Lovastatin
 Loxapine and its salts
 L-tryptophan, when sold as a single ingredient lumefantrine
 Lubiprostone
 Luliconazole
 Lumacaftor/ivacaftor
 Lumasiran
 Lumateperone tosylate
 Lumiracoxib
 Lurasidone
 Lurbinectedin
 Luspatercept–aamt
 Lusutrombopag
 Lutetium (177lu) vipivotide tetraxetan
 Lutetium lu 177 dotatate
 Macimorelin acetate
 Macitentan
 Mafenide acetate
 Maftivimab,

 Magnesium chloride; potassium chloride; potassium phosphate, monobasic; sodium acetate; sodium chloride; sodium gluconate; sodium phosphate, dibasic, heptahydrate

 Magnesium glutamate hydrobromide
 Magnesium sulfate in injectable form for parenteral nutrition
 Malathion
 Maltivitamin intravenous solution
 Manganese and its salts in injectable form for parenteral nutrition
 Mannitol
 Mannitol; sorbitol solution, irrigation
 Maprotiline and its salts
 Maraleucel
 Maralixibat chloride
 Maraviroc
 Marbofloxacin and its salts and derivative
 Margetuximab (anti-her2 mab

Maribavir
Marstacimab
Masupirdine
Mavacamten
Mavorixafor
Mazindol and its salts
Measles vaccine
Mebendazole
Mecamylamine and its salts
Mechlorethamine hydrochloride
Mecillinam and its salts and derivatives
Meclizine and its salts (when sold in concentrations of more than 25 mg per dosage unit)
meclofenamic acid and its salts
Medroxyprogesterone acetate
Mefenamic acid
Mefloquine and artesunate
Mefloquine and its salts and derivatives
Megestrol and its salts
Melanoma therapeutic vaccine
Melarsomine and its salts
Meloxicam and its salts and derivatives
Melfhalan
Memantine (derivative of amantadine)
Memantine hydrochloride
Meningococcal vaccine
Menotropins (human)
Mepacrine and its salts
Mepazine and its salts
Mephenoxalone
Mephentermine and its salts
Mepivacaine and its salts - dental local anesthetic
Mepolizumab
Meprobamate
Mercaptopurine
Meropenem and its salts and derivatives
Meropenem and vaborbactam
Mesalamine
Mesna
Mesoridazine and its salts
Mesterolone

Metaldehyde
Metaproterenol sulfate
Metaraminol bitartrate
Metaxalone
Metformin and its salts and derivatives
Methacholine
Methandienone
Methandranone
Methandriol
Methandrostenolone
Methazolamide and its salts
Methenolone depot
Methicillin and its salts and derivatives
Methimazole
Methisazone
Methohexital sodium
Methotrexate and its salts
Methotrimeprazine and its salts
Methoxamine and its salts
Methoxsalene
Methscopolamine and its salts
Methsuximide
Methylene blue
Methylergonovine maleate
Methylnaltrexone bromide
Methylphenidate
Methylprednisolone and its salts
Methyltestosterone
Methysergide and its salts and derivatives
Metoclopramide
Metolazone and its salts
Metomidate and its salts
Metopimazine and its salts
Metoprolol
Metronidazole
Metropolol and its salts
Metyrapone and its salts
Metyrosine
Mexiletine and its salts
Mezlocillin and its salts and derivatives

Mibolerone
Micafungin sodium
Miconazole and its salts (except in topical preps.)
Midazolam and its salts
Midodrine and its salts
Midostaurin
Mifepristone
Mifepristone + misoprostol
Migalastat
Miglitol
Miglustat
Milbemycin and its derivatives
Milnacipran hydrochloride
Milrinone and its salts
Miltefosine
Minocycline hydrochloride
Minoxidil

Minoxidil (except in solutions for topical use in concentrations of 2% or less)

Mirabegron
Miricorilant
Mirikizumab-mrkz
Mirtazapine and its salts
Mirvetuximab soravtansine-gynx
Misoprostol
Mitapivat
Mitomycin and its salts
Mitotane (o,p'-ddd)
Mitoxantrone and its salts
Mivacurium chloride
Mivavotinib
Mobocertinib succinate
Modafinil
Moexipril hydrochloride
Mogamulizumab-kpkc
Molgramostim
Molindone hydrochloride
Molnupiravir
Momelotinib
Mometasone furoate

Montelukast and its salts
Mosunetuzumab-axgb
Motixafortide
Moxetumomab pasudotox-tdfk
Moxidectin
Moxifloxacin and its salts and derivatives
Mucopo - lisacaridasa
Mumps vaccine
Mupirocin
Murlentamab
Mycophenolate and its salts
Mycophenolic acid and its salts and derivatives
Nabilone
Nabumetone
Nadolol and its salts
Nadroparin and its salts
Nafarelin and its salts and derivatives
Nafcillin and its salts and derivatives
Naftifine hydrochloride
Nalaprilat
Naldemedine
Naldemedine tosylate
Nalidixic acid
Nalmefene and its salts
Naloxegol oxalate
Naloxone and its salts
Naltrexone and its salts
Nandrolone undecanoate
Naproxen and its salts
Naratriptan and its salts
Natamycin
Nateglinide and its salts and derivatives
Naxitamab-gqgk
Nebivolol hydrochloride
Necitumumab
Nedocromil and its salts
Nedosiran
Nefazodone and its salts
Nelarabine
Nelfinavir and its salts

Neluxicapone
Neocinchophen and its salts
Neomycin and its salts and derivatives
Neostigmine salts
Nepafenac
Neratinib maleate
Nerinetide
Nesiritide
Netarsudil
Netilmicin and its salts and derivatives
Netupitant
Nevanimibe
Nevirapine and its salts
Nicarbazin
Nicardipine and its salts
NicotinyI-tartrate
Nifedipine
Nifurtimox
Nikethamide
Nilotinib hydrochloride
Nilutamide
Nimodipine and its salts
Nintedanib esylate
Niraparib
Nirmatrelvir
Nirogacestat
Nirsevimab
Nirsevimab-alip
Nisoldipine
Nitazoxanide
Nitisinone
Nitrazepam and its salts
Nitric oxide
Nitrofurantoin and its salts
Nitroglycerin (except for immediate-release sublingual dosage forms)
Nitroscanate
Nitrous oxide
Nivolumab
Nivolumab and relatlimab-rmbw
Nizatidine and its salts

Nogapendekin alfa inbakicept-pmln
 Nomacopan
 Nomifensine and its salts
 Norepinephrine and its salts
 Norethandrolone
 Norethindrone
 Norfloxacin
 Norgestimate
 Nortriptyline and its salts
 Novobiocin and its salts and derivatives
 Nusinersen and its salts
 Nyldrin and its salts

 Nystatin and its salts and derivatives (except preparations for topical use on the skin)

 Obeticholic acid
 Obexelimab
 Obiltoxaximab
 Ocrelizumab
 Octatropine methylbromide
 Octreotide
 Odesivimab-ebgn
 Odevixibat
 Ofatumumab
 Ofloxacin and its salts
 Olacافتor
 Olanzapine and its salts
 Olaparib
 Olaratumab
 Oleandomycin and its salts and derivatives
 Olenasufligene relduparvovec
 Oliceridine
 Olinvacimab
 Olipudase alfa
 Olodaterol hydrochloride
 Olopatadine and its salts
 Olorinab
 Olsalazine and its salts
 Olutasidenib
 Omacetaxine mepesuccinate
 Omadacycline

Omalizumab
Omaveloxolone
Omburtamab
Omega-3-acid ethyl esters
Omeprazole
Ondansetron and its salts
Ontamalimab
Oomidenepag isopropyl
Opicapone
Orciprenaline (metaproterenol) and its salts
Orilanolimab
Oritavancin diphosphate
Orlistat
Ornidazole
Orphenadrine hydrochloride
Oseltamivir and its salts
Osgemcitabine palabenamide
Osifloxuridine nafalbenamide
Osilodrostat
Osimertinib
Osocimab
Oteseconazole
Otilimab
Oxacillin and its salts and derivatives
Oxaliplatin
Oxanamide
Oxandrolone
Oxaprozin and its salts and derivatives
Oxazepam and its salts
Oxcarbazepine
Oxiconazole nitrate
Oxolinic acid and its salts
Oxprenolol and its salts
Oxybutynin and its salts
Oxygen
Oxymesterone
Oxymetazoline hydrochloride
Oxymetholone
Oxyphenbutazone and its salts
Oxytocin

Ozanimod
Ozenoxacin
Paclitaxel and its derivatives
Pacritinib
Pafolacianine and its salts
Palbociclib
Paliperidone
Palivizumab
Palonosetron hydrochloride
Palovarotene
Pamidronic acid and its salts

Pancreatic enzymes (in products for the treatment of established pancreatic insufficiency) pancreatin
(in products for the treatment of established pancreatic insufficiency) pancrelipase (in products for
the treatment of established pancreatic insufficiency) pancuronium and its salts

Panobinostat
Pantoprazole and its salts
Papaveretrine and its salts
Papaverine and its salts
Paracetamol + hydrocordone bitarate oral solution
Paracetamol infusion
Paraldehyde
Paramethadione
Parathyroid hormone
Pargyline and its salts
Paricalcitol
Paromomycin
Paroxetine and its salts

Paroxypropione – pituitary gonadotropin hormone inhibitor used for pituitary hyperactivity

Parsley oil (apiol oil) petroselinum crispum
Pasireotide and its salts
Patiomer
Patisiran
Pazopanib hydrochloride
Pegcetacoplan
Pegulicianine
Pegunigalsidase alfa-iwxj
Pegvaliase-pqpz
Pembrolizumab

Pemetrexed and its salts
 Pemigatinib
 Pemoline and its salts
 Penciclovir and its salts
 Penicillamine
 Penicillins and their salts and derivatives
 Pentaerythritol tetranitrate
 Pentagastrin and its salts - diagnostic agent to test the secretory activity of the stomach
 pentamidine and its salts
 Pentazocine
 Pentazocine hydrochloride
 Pentolinium tartrate
 Pentosan polysulfate and its salts
 Pentostatin and its salts
 Pentoxifylline and its salts
 Peramivir
 Perampanel
 Perfluorhexyloctane
 Perflutren
 Pergolide and its salts
 Pericyazine and its salts
 Perindopril and its salts
 Perphenazine and its salts
 Pexidartinib
 Phacetoperane and its salts
 Phenacemide
 Phenacetin
 Phenaglycodol
 Phenazopyridine and its salts
 Phenelzine and its salts
 Phenformin and its salts
 Pheniprazine and its salts
 Phenoxybenzamine and its salts - test for pheochromocytoma
 Phentoxate and its salts
 Phentolamine and its salts
 Phenylbutazone and its salts
 Phenylephrine and its salts (in preparations for parenteral or ophthalmic use in concentrations greater than 2.5%)
 Phenylindanedione and its derivatives
 Physostigmine salicylate (except preparations for oral or topical use only)

Phytonadione
Pilocarpine and its salts
Pimavanserin and its salts
Pimozide
Pinaverium bromide
Pindolol and its salts
Pioglitazone and its salts
Pipecuronium bromide
Piperacetazine and its salts
Piperacillin + tazobactam
Piperilate and its salts
Pipobroman
Pipotiazine and its salts
Pipradol and its salts
Pirbuterol and its salts
Pirenzepine and its salts
Pirfenidone
Piroxicam and its salts
Pirtobrutinib
Pitavastatin and its salts
Pitolisant
Pizotyline and its salts
Plazomicin
Plecanatide
Plerixafor
Pneumococchia
Podofilox
Podophyllum and the following extracts and active principles (when sold or recommended for topical use): podophyllum toxin and podophyllum resin
Polatuzumab vedotin-piiq
Polidocanol
Poliomyelitis
Polymyxin b and its salts and derivatives
Polysulfated glycosaminoglycan
Pomalidomide
Ponatinib
Ponesimod
Poractant alfa
Porfimer and its salts
Posaconazole

Potassium acetate
Potassium bromide
Potassium citrate
Potassium gluconate when sold or recommended for administration to cats
Potassium para-aminobenzoate (except in preparations for topical use on the skin) potassium salts
(injectable preparations)
Povidone-iodine solution/drops
Pozelimab-bbfg
Prabotulinumtoxina-xvfs
Prademagene zamikeracel
Pralatrexate
Pralidoxime and its salts
Pralsetinib
Pramipexole and its salts
Pramlintide acetate
Prasterone
Prasugrel hydrochloride
Pravastatin and its salts
Prazepam and its salts
Praziquantel
Prazosin and its salts
Prednicarbate
Prednisolone and its salts
Pregabalin
Prenylamine and its salts
Pretomanid
Primidone
Probenecid and its salts
Probucol
Procainamide and its salts
Procarbazine and its salts
Procaterol and its salts
Prochlorperazine and its salts
Procyclidine and its salts
Prodilidine and its salts
Profenamine and its salts
Progestins (for menstrual disorder, cancer and contraceptives)
Proguanil and its salts
Promazine and its salts
Propafenone and its salts

Propofol
Propoxyphene
Propranolol and its salts
Proquamezine (aminopromazine) and its salts (for internal use)
Prostaglandins and their salts and derivatives
Protamine and its salts – antidote for heparin
Prothipendyl hydrochloride
Protirelin
Protriptyline and its salts
Prucalopride
Prucalopride succinate
Pyrazinamide
Pyridostigmine bromide
Pyridoxine
Pyridoxine hydrochloride
Pyrimethamine and its salts
Quazepam
Quetiapine and its salts
Quinagolide and its salts
Quinapril and its salts and derivatives
Quinidine salts
Quinine salts
Quinupristin and its salts
Quizartinib
Rabeprazole and its salts
Rabies vaccines
Racemethionine – used in the treatment of paracetamol poisoning
Raloxifene and its salts
Raltegravir and its salts
Raltitrexed and its salts and derivatives
Ramelteon
Ramipril and its salts and derivatives
Ranitidine and its salts (except oral tablets in strengths of 75 mg or less)
Ranolazine
Rasagiline mesylate
Raubasine and its salts
Rauwolfia
Ravulizumab
Regadenoson
Regorafenib

Relatlimab
Reldesemtiv
Relugolix
Remdesivir
Remimazolam
Remoxipride and its salts
Repaglinide and its salts and derivatives
Repotrectinib
Reproxalap
Rescinnamine and its salts
Reserpine and its salts
Reslizumab
Resmetirom
Resmetirom
Retapamulin
Retifanlimab-dlwr
Revefenacin
Reviparin and its salts
Rezafungin
Ribavirin
Ribociclib
Rifabutin and its salts
Rifampin and its salts and derivatives
Rifamycin
Rifapentine
Rilpivirin
Rilpivirine
Rilpivirine and its salts
Riluzole and its salts
Rimantadine and its salts
Rimaquine and its salts
Rimegepant and its salts
Riociguat
Ripretinib
Ripretinib
Risankizumab-rzaa
Risdiplam
Risedronic acid and its salts
Risperidone and its salts
Ritlecitinib

Ritodrine and its salts
Ritonavir
Rituximab
Rivaroxaban
Rivastigmine and its salts
Rizatriptan and its salts
Rocacetrapi
Rocuronium bromide
Rodatristat
Roflumilast
Rolapitant
Rolinsatamab
Rolinsatamab talirine
Roluperidone
Romidepsin
Romosozumab-aqqg
Ronidazole and its salts and derivatives
Ropinirole and its salts
Ropivacaine and its salts
Rose bengal
Rosiglitazone and its salts
Rosoxacin and its salts
Rosuvastatin
Rotavirus vaccine
Rotigotine
Rovafovir
Rovocimab
Rozanolixizumab-nol
Rubella vaccine
Rucaparib
Rufinamide
Ruxolitinib and its salts
Ruxotemitide
Sacituzumab govitecan-hziy
Sacubitril/valsartan
Safinamide
Salbutamol and its salts
Salmeterol and its salts
Salsalate and its salts and derivatives
Samidorphan l-malate

Sapropterin dihydrochloride
Saquinavir and its salts and derivatives
Saralasin and its salts
Sarecycline
Sargramostin
Sarilumab
Satralizumab-mwge
Saxagliptin hydrochloride
Sebelipase alfa
Secnidazole
Secretin synthetic human
Secukinumab
Segesterone acetate and ethinyl estradiol vaginal system
Selatogrel
Selegiline and its salts
Selenium (in injectable form)
Selexipag
Selinexor
Selpercatinib
Selumetinib
Semaglutide
Serdexmethylphenidate
Sermorelin and its salts
Sertaconazole
Sertraline and its salts
Setmelanotide
Sevelamer and its salts
Sex hormones
Sibutramine and its salts
Sildenafil and its salts
Silver sulfadiazine
Simvastatin
Sincalide
Sinecatechins
Sintilimab
Siponimod
Siremadlin
Sirolimus and its derivatives
sitagliptin
Sodium acetate (injectable form)

Sodium aurothiomalate
 Sodium benzoate; sodium phenylacetate solution;intravenous
 Sodium biphosphate (for parenteral use, carthatic)
 Sodium bromide
 Sodium chloride (injectable form)

 Sodium fluoride (in solid oral dosage forms containing more than 1 mg of fluoride ion)

 Sodium iodide (injectable form)
 Sodium nitroprusside and its salts
 Sodium oxybate
 Sodium phenylbutyrate
 Sodium phosphate (injectable form)
 Sodium polystyrene sulfonate
 Sodium tetradecyl sulfate injectable solution
 Sodium valproate
 Sodium zirconium cyclosilicate
 Sofosbuvir and velpatasvir
 Sofosbuvir, velpatasvir and voxilaprevir
 Sofosbuvir/velpatasvir
 Sofpironium
 Solifenacin succinate
 Solriamfetol
 Somapacitan-beco
 Somatostatin
 Somatotropin
 Somatrem
 Somatrogon-ghla
 Somatropin
 Sonidegib
 Sorafenib and its salts
 Sotagliflozin
 Sotalol and its salts
 Sotatercept-csrk
 Soticlestat
 Sparsentan
 Spectinomycin and its salts and derivatives
 Spesolimab
 Spesolimab-sbzo
 Spiramycin and its salts and derivatives
 Spironolactone

Stanolone
 Stanozolol
 Stavudine
 Stiripentol
 Streptokinase/streptodornase
 Streptomycin and its salts and derivatives
 Streptozocin
 Strontium bromide

 Succinimide and its salts and derivatives (except those compounds used for decontaminating water)

 Succinylcholine and its salts
 Sucralfate
 Sugammadex
 Sulconazole and its salts
 Sulfacetamide sodium
 Sulfamethoxazole; trimethoprim
 Sulfinpyrazone and its salts
 Sulindac and its salts
 Sulphonamides and their salts and derivatives
 Sulphones and their derivatives
 Sumatriptan and its salts
 Sunitinib malate
 Suprofen and its salts
 Sutimlimab-jome
 Suvorexant
 Suxamethonium chloride
 Synthroid
 Tabituximab
 Tabituximab barzuxetan
 Tacrolimus and its derivatives
 Tadalafil
 Tafamidis meglumine
 Tafasitamab
 Tafasitamab-cxix
 Tafenoquine
 Tafluprost
 Tagraxofusp-erzs
 Talazoparib
 Talditercept alfa
 Talquetamab-tgvs

Tamoxifen and its salts
Tamsulosin and its salts
Taniborbactam
Tapinarof
Tarlatabamab-dlle
Tasimelteon
Taurolidine
Taurursodiol
Tavaborole
Tavapadon
Tazarotene
Tazemetostat
Tazobactam and its salts and derivatives
Tebentafusp-tebn
Teclistamab-cqyv
Tecovirimat
Tedizolid and its salts
Teduglutide recombinant
Tegafur and its salts
Telaglenastat
Telavancin and its salts
Telmisartan and its salts and derivatives
Telotristat ethyl
Temelimab
Temozolomide and its salts
Temsilolimus
Tenapanor
Tenecteplase and its salts and derivatives
Teniposide
Tenofovir and its salts
Tenofovir disoproxil fumarate
Tenoxicam and its salts
Teplizumab-mzwv
Tepotinib and its salts
Teprotumumab-trbw
Terazosin and its salts
Terbinafine and its salts
Terbutaline and its salts
Terconazole and its salts
Terfenadine and its salts

Teriflunomide
Teriparatide
Terlipressin
Terlipressin and its salts
Tesseraturev
Testolactone
Testosterone and its salts
Tetanus toxoid and antitoxin
Tetrabenazine and its salts
Tetracycline and its salts and derivatives
Tezacaftor
Tezacaftor; ivacaftor
Thalidomide
Theobromine and its salts
Theophylline and its salts
Thiabendazole
Thiethylperazine and its salts
Thiocarlide
Thioguanine
Thiopropazate and its salts
Thiopropazine and its salts
Thioridazine and its salts
Thiotepa
Thiothixene and its salts
Thiouracil and its derivatives
Thyroglobulin
Thyrotropin
Thyroxine and its salts
Tiagabine
Tiaprofenic acid and its salts
Ticagrelor
Ticarcillin and its salts and derivatives
Ticlopidine and its salts
Tigecycline
Tildacerfont
Tildrakizumab
Tiludronic acid and its salts
Timolol and its salts
Tinidazole
Tinzaparin and its salts

Tioconazole and its salts (except in topical preps)

Tiopronin

Tiotropium and its salts

Tipranavir

Tirbanibulin

Tirbanibulin

Tirofibran and its salts and derivatives

Tirzepatide

Tisagenlecleucel

Tislelizumab-jsgr

Tivozanib and its salts

Tizanidine and its salts

Tobramycin and its salts and derivatives

Tocainide and its salts

Tofersen

Tolazamide

Tolazoline and its salts

Tolbutamide

Tolcapone

Tolmetin and its salts

Tolterodine and its salts

Tolvaptan

Topiramate

Topotecan and its salts

Torasemide and its salts

Toremifene and its salts

Toripalimab

Toripalimab-tpzi

Tovorafenib

Trabectedin

Tramadol

Trandolaprilat and its salts and derivatives

Tranexamic acid

Tranylcypromine

Trastuzumab

Travoprost

Trazodone and its salts

Tremelimumab

Trenbolone acetate

Treosulfan

Treprostinil
Treprostinil
Tretamine
Tretinoin and its salts and derivatives
Triamcinolone acetonide
Triamterene and its salts
Triazolam and its salts
Triclabendazole
Trientine
Trifarotene
Trifluoperazine and its salts
Trifluridine
Trifluridine and tipiracil
Triheptanoin
Trihexyphenidyl and its salts
Triiodothyropropionic acid
Trilaciclib dihydrochloride
Trilostane
Trimebutine and its salts
Trimeprazine and its salts
Trimethadione
Trimethaphan camsylate
Trimethobenzamide hydrochloride
Trimethoprim and its salts
Trimetrexate and its salts
Trimipramine and its salts
Trioxsalen
Triprolidine
Triptorelin pamoate
Trofinetide
Tromethamine
Tropicamide (in parenteral or ophthalmic preps)
Trovaflouxacin and its salts and derivatives
Tuberculosis bcg
Tubocurarine and its salts
Tucatinib
Tybamate
Ublituximab-xiiy
Ubrogepant
Ulipristal

Umeclidinium
Umeclidinium bromide
Umibecestat
Upadacitinib
Uracil mustard and its salts
Uridine triacetate
Urofollitropin
Ursodeoxycholic acid and its salts
Ursodiol
Vadadustat
Vafidemstat
Valaciclovir and its salts
Valbenazine
Valdecoxib and its salts
Valecobulin
Valganciclovir
Valproic acid and its salts
Valrubicin and its derivatives
Valsartan and its salts and derivatives
Vamorolone
Vancomycin and its salts and derivatives
Vandetanib
Vardenafil and its salts
Varenicline and its salts
Vasopressin and its salts
Vecuronium bromide
Vedaprofen and its salts and derivatives
Velmanase alfa-tycv
Vemurafenib
Venetoclax
Venlafaxine and its salts
Verapamil and its salts
Veratrum album and its alkaloids and their salts
Veratrum viride and its alkaloids and their salts
Vericiguat
Verteporfin and its salts and derivatives
Vestronidase alfa-vjbk
Vibegron
Vidarabine
Vigabatrin and its salts and derivatives

Vilanterol
 Vilanterol trifenate
 Vilazodone and its salts
 vildagliptin
 Viloxazine hydrochloride
 Viltolarsen
 Vinblastine and its salts
 Vincristine and its salts
 Vindesine and its salts
 Vinorelbine and its salts
 Viomycin and its salts and derivatives
 Virginiamycin and its salts and derivatives
 Vismodegib

 Vitamin a in oral dosage form containing more than 10,000 iu of vitamin a per dosage form or,
 where the largest recommended daily dosage shown on the label would, if consumed by a person,
 result in the daily intake by that person of more than 10,000 iu of vitamin a

 Vitamin b12 with intrinsic factor concentrate

 Vitamin d in oral dosage form containing more than 1,000 iu of vitamin d per dosage form or, where
 the largest recommended daily dosage shown on the label would, if consumed by a person, result in
 the daily intake by that person of more than 1,000 iu of vitamin d

THIRD SCHEDULE

(Made under regulation 20(1))

PHARMACY ONLY HUMAN MEDICINES

A. Behind the counter

Acetylcystein

Acetylsalicylic acid (junior ASA)

All general sales products in hospital packs

Amodiaquine and Artesunate Apomorphine and its salts

Arginine and its salts

Artemether and Lumefantrine Azelaic acid (for Acne vulgaris)

Bacitracin and its salts and derivatives

Belladonna alkaloids, and their salts and derivatives

Benoxinate (oxybuprocaine) and its salts

Benzocaine and its salts (for parenteral or ophthalmic use)

Benzyl benzoate emulsion

Bisacodyl and its salts

Boric acid and its salts

Brompheniramine and its salts as a single entity for the treatment of allergies

Bucizine e.g. as one of the ingredients in antimigraine preparations

Butacaine and its salts

Calcium disodium edetate

Camphor (in oleaginous vehicles and in liquid forms in concentrations greater than 11% Cetirizine and its salts (antihistamine with low sedation)

Charcoal (activated) when sold as a poisoning antidote

Chloroprocaine and its salts (local anesthetic)

Chlorzoxazone and its salts (oral skeletal muscle relaxant with sedative properties) Chymotrypsin (ophthalmic – cataract operation)

Cinchocaine (dibucaine) and its salts (for ophthalmic or parenteral use)

Clidinium and its salts – peptic ulcer

Clotrimazole and its salts

Coal tar preparations

Codeine and its salts (in preparations exempted from the Regulations to the Controlled Drugs and Substances Act)

Crotamiton - antiscabbies

Cyclopentolate and its salts (for supply to an optometrist)

Cyproheptadine and its salts

Desloratadine and its salts (antihistamine with low sedation)

Dexbrompheniramine and its salts (antihistamine)

Dexchlorpheniramine and its salts (antihistamine)

Dextromethorphan and its salts
 Dextrose (sclerosing agents)
 Diclofenac and its salts (oral dosage forms)
 Dicyclomine and its salts (antispasmodic)
 Diiodohydroxyquin –(antiamoebic)
 Dimenhydrinate and its salts
 Dipiperdon and its salts -Local anaesthetic (for surface anaesthesia)
 Diphenhydramine and its salts
 Diphenoxylate preparations
 Dithranol (anthralin) - dermatological
 Doxylamine and its salts (when sold for nausea and vomiting of pregnancy)
 Dyclonine local anaesthesia for topical anaesthesia of mucous membranes
 Epinephrine and its salts (in pre-filled syringes intended for emergency administration by injection in the event of anaphylactic reactions to allergens)
 Esdepallethrin/ piperonyl butoxide – management of head lice
 Ethanolamine oleate
 Ethoheptazine and its salts less addictive opioid analgesic
 Ethyl chloride – topical local anaesthetic
 Fexofenadine hydrochloride - antihistamine
 Fibrin –surgical haemostatic
 Fibrinolysin – in wound healing preparations
 Fractar (coal tar)
 Glucagon
 Glycopyrrolate and its salts –anaesthetic premedication
 Gramicidin and its salts and derivatives
 Haloprogin - antifungal
 Heparin and its salts (for prophylaxis against re-thrombosis in myocardial infarction)
 Histamine and its salts (for phaeochromocytoma, skin sensitivity, sensory nerve integrity, bronchial reactivity diagnosis)
 Homatropine and its salts (for oral use in concentrations of 2 mg or less per dosage unit) Human insulin
 Hyaluronic acid and its salts (preparations in concentrations of 5% or more) – for osteoarthritis of the knee
 Hyaluronidase – promotes resorption of excess fluids and blood and also enhances permeation of intramuscular injections.
 Hydrocortisone (as a single ingredient in topical preparations in concentrations of 0.5% or less)
 Hydroxyephedrine and its salts (oxilofrene, para hydroxy ephedrine, oxyephedrine) used in cough mixtures and as antihypertensive agent.
 Hyoscine and its salts and derivatives (scopolamine)
 Hyoscyamine and its salts and derivatives
 Iodine and its salts and derivatives (except topical preparations or in oral doses of 1 mg or less per day)
 Ipecac and its extracts and derivatives (when used as an emetic)

Iron and its salts and derivatives (preparations with more than 30 mg elemental iron per solid dosage unit or 5 mL oral liquid)

Kaolin preparations

Lactic acid (preparations in concentrations of more than 10% - used as a keratolytic) Lactulose – mild laxative and for hepatic encephalopathy

Levargorphane and its salts - dental local anaesthetic

Levonordefrine – excipient in dental local anaesthetic solutions

Levonorgestrel (used for contraception)

Lidocaine and its salts

Lindane

Lobelia and its alkaloids and preparations for cessation of smoking

Lodinated glycerol (used as expectorant)

Lodochlorhydroxyquin (Clioquinol) - for topical use as antifungal antibacterial

Loratadine and its salts and preparations - antihistamine

Mannitol and its salts

Meclizine and its salts- antiemetic antihistamine

Mefenamic acid and its salts

Methantheline and its salts – antispasmodic, adjunctive treatment of peptic ulcer, and micturation disorders

Methdilazine and its salts antihistamine

Methenamine and its salts – for urinary tract infection

Methocarbamol for relief of muscle spasms in compound analgesic preparations Miconazole and its salts (for topical use)

Monobenzone - for skin depigmentation in hyperpigmentation conditions such vitiligo Monoethanolamine oleate –for sclerotherapy of varicose vein

Naphazoline and its salts – nasal decongestant

Narcotine and its salts (noscapine) used in cough mixtures

Niacin (in extended-release formulations)

Nitroglycerin (immediate-release sublingual dosage forms)

Norgestrel

Noscapine (narcotine) and its salts used in cough mixtures

Nystatin and its salts and derivatives (in topical preparations for use on the skin) Oxybuprocaine and its salts (benoxinate) – local anaesthetic

Oxymetazoline and its salts – nasal decongestant

Oxyquinoline (hydroxyquinoline) and its salts – used for topical treatment of skin infections Permethrin and its derivatives – effective for scabies, head lice and crab lice

Phenol (preparations with concentration of more than 20%) – antiseptic/ disinfectant

Phenylephrine and its salts and preparations (in nasal preparations for pediatric use, in concentrations of 2.5% or less)

Physostigmine salicylate (for oral or topical use)

Piperonyl butoxide (as used for treatment of pediculosis)

Potassium salts (preparations containing more than 5 mmol per single dose)

Povidone - iodine (vaginal preparations, except in concentrations of 5% or less)

Pramocaine (pramoxine) and its salts (for ophthalmic or parenteral use)

Prilocaine and its salts – local anaesthetic

Procaine and its salts – local anaesthetic

Promethazine and its salts (except for topical use)

Propantheline and its salts

Proparacaine and its salts– local anaesthetic

Propylhexedrine – anorexiant in management of obesity, also nasal decongestant

Pyrantel and its salts -anthelminthic

Pyrvinium and its salts used for treatment of entrobium (helminthes) Rue and its preparations and extracts (used for menstrual disorders)

Salicylic acid and its salts (in topical preparations in concentrations greater than 40%)

Scopolamine and its salts (hyoscine) Silver nitrate – for removal of warts

Sodium chloride (single ingredient solutions in concentrations of more than 0.9%)

Sodium citrate (for parenteral use)

Sodium phosphate (cathartics)

Sodium tetradecylsulfate – anionic surfactant with sclerosing properties used in the treatment of varicose veins

Stramonium and its preparations, extracts, and compounds - for respiratory disorders Sutilains has proteolytic action used for debridement of wounds, burns and decubitus ulcers.

Tetracaine and its salts

Tetrahydrozoline (in nasal preparations)

Thrombin (as a debriding agent) – to clear clots and purulent matter

Triethanolamine salicylate used for skin disorders e.g. psoriasis.

Tripelennamine and its salts - antihistamine

Tyrothricine- antibacterial agent for local treatment of skin and mouth

Urea (in topical preparations in concentrations of more than 25%) used in the treatment of hyperkeratosis of the skin and ichthyosis

Vitamins (excluding parenteral formulations)

B. Over the counter (OTC) Medicine

Benzalkonium and its salts (liquid disinfectant preparations)

Benzethonium chloride (liquid disinfectant preparations)

Benzocaine and its salts (for topical use on mucous membranes for teething)

Benzonate (cough suppressant with local anaesthetic action of the mucous membrane) Benzoyl peroxide (preparations of 5% or less as a single ingredient)

Berberis vulgaris (Barberry)

Carbinoxamine and its salts (for cough mixtures and flu preparations)

Cromoglycic acid and its salts in solutions of sodium cromoglycate in concentrations of 2% or less, for ophthalmic or intranasal use

Danthron (laxative)
 Dehydrocholic acid and its salts (laxative)
 Diclofenac and its salts (topical dosage forms)
 Dimenhydrinate and its salts (when used in cough preparations)
 Diphenhydramine and its salts (when used in cough preparations)
 Diphenylpyraline – for cough preparations
 Doxylamine and its salts when used in cough preparations
 Fluoride and its salts (oral preparations containing 1 mg or less of fluoride ion per dosage unit) – prophylaxis against dental carries
 Ibuprofen and its salts (when sold in strengths above 200mg)
 Iodine and its salts and derivatives (for topical use)
 Magnesium citrate (cathartics)
 Magnesium salicylate - NSAID
 Methyl salicylate
 Minoxidil (in solutions for topical use in concentrations of 2% or less)
 Nicotine and its salts (when sold in a form to be administered by inhalation device delivering 4 mg or less of nicotine per dosage orally by means of a unit) for cessation of smoking
 Oxethazine – used in combination preparations containing antacids for the symptomatic relief of gastrooesophageal reflux
 Paracetamol (in sustained-release)
 Phenyltoloxamine and its salts – decongestant contained in compound preparations for flu Piperazine and its salts
 Povidone iodine (topical preparations, except in concentrations of 5% or less) Promethazine and its salts (for topical use)
 Salicylic acid and its salts (in topical preparations in concentrations less than 40%)
 Triethanolamine oleate –removal of ear wax

FOURTH SCHEDULE

(Made under Regulation 23 (1))

GENERAL SALES HUMAN MEDICINES

Acetylsalicylic acid and its salts (in products for oral use in strengths of 300mg and 500mg per dosage unit);
 Acetylsalicylic acid/paracetamol/caffeine combinations;
 Aluminium Hydroxide
 Arachis Oil preparations (for sore mouth)
 Ayurvedic ointments
 Benzocaine preparation (except for children)
 Camphor Preparations
 Carmellose preparations

Chlorinate Lime (EUSOL) solution
Clove oil
Dental floss
Dequalinium Preparations
Eucalyptus
Eucalyptus oil preparations
Eucalyptus products
Eugenol
First Aid Ointment
Gentian violet solution
Ibuprofen and its salts (when sold in strengths of 200mg or less per dosage form) (Note: 200mg or less per solid form or per 5ml liquid)
Ibuprofen/Ephedrine combinations
Iodine solution
Lozenges
Magnesium trisilicate
Menthol
Menthol Products
Mentholatum preparations
Methyl salicylate products
Mouth washes
Oral Rehydration Salts (ORS)
Paracetamol (in immediate release tablets, capsules or liquid)
Products containing cough suppressants,
antihistamines or decongestants except narcotic analgesics.
Simethicone
Undecylenic acid preparations
Vitamins and tonics
Whitfield's ointment

FIFTH SCHEDULE

(Made under Regulation 24 (1))

ADDO HUMAN PRESCRIPTION MEDICINES

Aminophylline injection
Amoxicillin capsules
Amoxicillin oral suspension
Amoxicillin Dispersible Tablets 125 mg and 250 mg
Zinc oxide/bismuth subgallate/balsam peru/bismuth oxide suppositories
Bendrofluazide
Benzyl Penicillin powder for injection
Bisacodyl tablets
Cetirizine hydrochloride syrup
Cetirizine hydrochloride tablets
Chloramphenicol eye drops/ointment
Co-trimoxazole suspension
Dextrose 5%
Diclofenac sodium tablets
Doxycycline capsules/tablets
Ergometrine injection
Normal Saline injection
Nystatin oral suspension
Nystatin pessaries
Nystatin skin ointment
Nystatin tablets
Oxytetracycline hydrochloride eye ointment
Penicillin Fortified
Phenoxymethyl Penicillin suspension
Phenoxymethyl Penicillin tablets
Phenytoin
Piperazine and its salts in oral dosage forms
Procaine
Promethazine injection
Propranolol
Quinine injection
Quinine tablets
Silver sulfadiazine cream
Water for injection

SIXTH SCHEDULE

(Made under Regulation 25 (1))

CONTROLLED VETERINARY MEDICINES

Alfentanil
Alphachloralose Alphaprodine
Alprazolam
Apomorphine Benzodiazepines
Buprenorphine
Butorphanol
Carfentanil Chlordiazepoxide
Codeine
Etorphine
Fentanyl
Hydrocodone
Hydrocotyle Hydromorphone
Levomethadone Levorphanol
Lobeline
Lofentanil
Loperamide
Methadone Methylphenidate
Morphine
Nalbuphine Hydrochloride
Nalmefene
Nalorphine
Naloxone
Naltrexone
Oxymorphone
Pentazocine Pseudoephedrine
Remifentanil
Sufentanil
Tilidine

SEVENTH SCHEDULE

(Made under Regulation 31 (1))

PRESCRIPTION ONLY VETERINARY MEDICINES

5-Fluorouracil
Abamectin
Acebutolol
Acenocoumarol
Acepromazine
Acertarsone
Acetazolamide
Acetic acid
Acetobenzoic acid
Acetohydroxamic acid
Acetylcholine
Acetylcysteine
Acinitrazole
Acitretin
Acrosoxacin
Activated charcoal
Acyclovir
Adrenaline
Adrenocorticotropin
Aglepristone
Aklomide
Albendazole
Albuterol
Alclofenac
Alcuronium
Aldactazide
Aldosterone
Allopurinol
Alphaprostol
Alphatocopherol
Althesin
Altrenogest
Aluminium
Aluminium salicylate

Alverine
Amicarbalide
Amikacin
Amiloride
Aminocaproic acid
Aminopentamide
Aminophenazone
Aminophylline
Aminopromazine
Aminopterin
Aminopyrine
Aminopyrineone
Aminosidine
Amiodarone
Amitraz
Amitriptyline
Amlodipine besydate
Ammonium chloride
Ammonium molybdate
Amoxicillin
Amphetamine
Amphotycin
Amphotericin B
Ampicillin
Amprolium
Amrinone
Anethole
Aneurine
Apramycin
Apresoline
Aprindine
Aprotinin
Aquamephyton
Arecoline
Arsonic acid (3-nitro-hydroxyphenyl)
Asparaginase
Astemizole
Atapimazole
Atenolol
Atipamezole

Atracurium
Atropine
Auranofin
Aurothioglucose
Aurothiopeptide
Avian coccidiosis vaccine
Avian encephalomyelitis vaccine
Avian mycoplasmosis vaccine
Avian pneumovirus vaccine
Avoparcin
Axerophthol
Axolinic acid
Azaperone
Azathioprine
Azithromycin
Aztreonam
Bacampicillin
Bacitracin
Bambermycin
Beclomethasone
Benazepril
Bendrofluazide
Benzathin penicillin G
Benzocaine Benzylpenicillin
Bephenium
Beta-aminopropionitrile
Betamethasone
Bethanechol
Beuthanasia
Biosterol
Biosterone
Bisacodyl
Bismuth
Bleomycin
Boldenone
Bovine bacillus anthracis vaccine
Bovine brucella abortus vaccine
Bovine campylobacter vaccine
Bovine coronavirus vaccine
Bovine haemophilus somnus vaccine

Bovine infectious keratoconjunctivitis vaccine
Bovine infectious rhinotracheitis vaccine
Bovine lactoserum concentrate
Bovine parainfluenza type 3 vaccine
Bovine respiratory syncytial virus vaccine
Bovine rotavirus vaccine
Bovine viral diarrhea type 1 vaccine
Bovine viral diarrhea type 2 vaccine
Bretylum
Bromelain
Bromhexine Bromide
Bromocriptine
Bromosulphothalein (bsp)
Budesonide
Bunamidine
Buparvaquone
Bupivacaine
Buquinolate
Busereline
Buspirone
Busuphan
Butamisol
Butizide
Butoform
Cabergoline
Caffeine
Calciferol
Calcitonin
Calcitriol
Calcium
Cambendazole
Canine adenovirus type 1 vaccine
Canine adenovirus type 2 vaccine
Canine coronavirus vaccine
Canine distemper vaccine
Canine herpesvirus vaccine
Canine infectious hepatitis vaccine
Canine infectious tracheobronchitis vaccine
Canine parainfluenza type 2 vaccine
Canine parvovirus vaccine

Canine piroplasmosis vaccine
Captopril
Carbadox
Carbamazepine
Carbamide
Carbenicillin
Carbimazole
Carboplatin
Carnidazole
Carnitine
Carprofen
Cascara sagrada
Cefacetril
Cefaclor
Cefadroxil
Cefalexine
Cefapirine
Cefazolin
Cefdinir
Cefepime
Cefixime
Cefoperazone
Cefotaxime
Cefotetan
Cefoxitin
Cefpodoxime p
Cefquinome
Ceftazidine
Ceftiofur
Ceftriaxone
Cephaloridine
Cephalothin
Cephapirin
Cephradine
Chlamydophila vaccine
Chloralbutanol
Chloralhydrate
Chlorambucil
Chloramphenicol
Chlorcyclizine

Chlormadinone
Chlormezanon
Chlorothiazide
Chlorphenamine
Chlorpropamide
Chlortetracycline
Cholecalciferol
Cholestyramine
Chondroitin
Chorionic gonadotropin (HCG)
Chromolynglycate
Cimetidine
Ciprofloxacin
Cisapride
Cisplatin
Clarithromycin
Clavulanic acid
Clazuril
Clemastine
Clenbuterol
Climazolam
Clindamycin
Clioquinol
Clodronate
Clofazimine
Clomipramine
Cloprostenol
Clorazepate
Clorsulon
Closantel
Clostridium botulinum type b toxoid
Clostridium chauvoei vaccine
Clostridium oedematiens type b vaccine
Clostridium perfringens vaccine
Clostridium septicum vaccine
Clostridium tetani antitoxin vaccine
Clostridium tetani toxoid vaccine
Clotrimazole
Cloxacillin
Cobalt Colchicine

Colecalciferol
Colony stimulating factor
Contagious bovine pleuropneumonia vaccine
Contagious caprine pleuropneumonia vaccine
Copper
Corticotropin
Cortisone
Coumaphos
Cresol
Cromolyn
Crufomate
Cyclizine
Cyclophosphamide
Cyclosporine
Cyclothiazide
Cyproheptadine
Cyproterone
Cysteine
Cytarabine
Dacarbazine
Dactinomycin
Danazol
Danofloxacin
Danthron
Dantrolene
Dapsone
Decamethonium
Decoquate
Deferoxamine
Delmadinone
Dembrexine
Demecarium bromide
Derzsys disease vaccine
Desflurane
Desmopressin
Desoxycorticosterone
Detomidine
Dexamethasone
Dextran 70
Dextromethorphan

Dextromphetamine
Dextrose
Diaminopyrimidine
Diamphenetide
Diaveridine
Diazoxide
Dibucaine
Dichlorophene
Diclofenac
Dicloxacillins
Dicyclomine
Diethylcarbamazine
Diethylstilbestrol
Diethylthiambutene
Difloxacin
Diflubenzuron
Digitoxin
Digoxin
Dihydrostreptomycin
Dihydrotachysterol
Di-iodohydroxyquin
Diisopropyl fluorophosphate
Diltiazem
Dimenhydrinate
Dimercaprol
Dimethyl sulfoxide
Dimetridazole
Diminazene
Dinoprost
Dinoprostone
Diethyl sodium sulfosuccinate
Diphenhydramine
Diphenoxylate
Diprenorphine
Dipyridamole
Dipyrrone
Disophenol
Disopyramide
Dobutamine
Docusate

Domperidone
Dopamine
Doramectin
Doxapram
Doxepin
Doxorubicin
Doxycycline
Doxylamine
Droperidol
Dyclonine
Econazole
Ecthyma vaccine
Edetate
Edrophonium
Egg drop syndrome vaccine
Enalapril
Enflurane
Enilconazole
Enrofloxacin
Ephedrine
Epinephrine
Epoetin alfa
Epostane
Eprinomectin
Epsiprantel
Equine chorionic gonadotropin
Equine herpesvirus vaccine
Equine influenza vaccine
Equine streptococcus equi vaccine
Equine viral arteritis vaccine
Equine west nile virus vaccine
Ergocalciferol
Ergomertrine
Ergotamine
Erysipelas vaccine
Erythromycin
Esmolol
Estradiol
Etamiphylline
Ethacrynic acid

Ether
Ethoxyzolamide
Ethylenediamine
Ethylisobutrazine
Etidocaine
Etidronate
Etodolac
Etomidate
Etretnate
Eugenol
Famotidine
Famphur
Febantel
Feline calicivirus vaccine
Feline herpesvirus vaccine
Feline immunodeficiency virus vaccine
Feline infectious peritonitis vaccine
Feline leukemia virus vaccine
Feline panleukopenia virus vaccine
Feline rhinotracheitis vaccine
Fenbendazole
Fenoprofen
Fenprostalene
Fenthion
Fenvalerate
Fertirelin
Finasteride
Fipronil
Florfenicol
Floxadine
Flubendazole
Flubriprofen
Fluconazole
Flucytosine
Fludrocortisone
Flumazenil
Flumequine
Flumethasone
Flunixin
Fluocinoline

Fluorometholone
Fluoxetine
Fluprostenol
Fluticasone
Follicular stimulating hormone
Folinic acid
Fomepizole
Foot and mouth disease vaccine
Formoterol
Fowl pox vaccine
Fowl typhoid vaccine
Framycetin sulphate
Furaltadone
Furosemide
Fusidic acid Gabapentin
Gallamine
Gemfibrozil
Gentamicin
Gleptoferron
Glibenclamide
Glipizide
Glucagon
Glucosamine
Glucose
Glutamine
Glyburide
Glycarbylamide
Glycarsamide
Glycerol
Glycine
Glycopyrrolate
Glycosaminoglycan
Glycosbiarsol
Gold
Gonadorelin
Gonadotropine chorionic
Gonadotropine releasing hormone
Goose hepatitis vaccine
Gramicidin
Granisetron

Griseofulvin
Guaiacol
Guaifenesin
Halofuginone
Haloperidol
Halothane
Haloxone
Hamamelis
Hematin
Hemorrhagic pneumonia vaccine
Heparin
Heptaminol acefyllin
Heptaminol HCl
Hetacillin
Hetastarch
Hexachlorophene
Hexametaphosphate
Hexamethyltetracosane
Hexobarbital
Homidium
Human chorionic gonadotrophin (hcg)
Human growth hormone
Hyaluronic acid
Hyaluronidase
Hydralazine
Hydrochlorothiazide
Hydrocortisone
Hydrourea
Hydroxocobalamine
Hydroxycarbamide
Hydroxymethylprogesterone
Hydroxyprogesterone
Hydroxyzine
Hygromycin B
Hyoscine
Hyoscyamine
Hypertonic saline solution
Ibafloxacin
Ibuprofen
Idazoxan

Idoxuridine
Imidacloprid
Imidapril
Imidocarbdiopionate
Imipenem
Imipramine
Indocyanine green (icg)
Indomethacin
Infectious bronchitis vaccine
Infectious Bursal Disease Vaccine
Infectious coryza vaccine
Infectious laryngotracheitis vaccine
Infectious rhinotracheitis vaccine
Inosine dimepranol acedoben
Inositol
Insulin
Interferon
Iodochlorhydroxyquin
Iodoquinol
Iopamidol
Ipecac
Ipodate
Iproniazid
Ipronidazole
Iron
Iron dextran
Isoconazole
Isoflupredone
Isoflurane
Isometamidium
Isoniazid
Isoprenaline
Isopropamide
Isopropyl aminopropanalol
Isopyrin
Isosorbide
Isotretinoin
Isoxsuprine
Itraconazole
Ivermectin

Josamycin
Kanamycin
Ketamine
Ketanserine
Ketoconazole
Ketoprofen
Ketorolac
Kinin
Lactic acid
Lactoflavin
Lactulose
L-arginine
Lasalocid
Latamoxef
Latanoprost
Lauricidin
L-carnitine
L-cysteine
L-deprenyl
Lecirelin
Lenperone
Leptospira vaccine

Choline

Chromium

Cobalt

Colecalciferol

Copper

Cresol

Cyfluthrin

Cypermethrin

Iodophor

Lanolin

Manganese

Methionine

Mineral oil

Multivitamin + Minerals powders

Phosmet

Propetamphos

Propoxur Pyrethrins

Quaternary ammonium

Riboflavin

TENTH SCHEDULE

(Made under Regulation 34 (1))

ADDO VETERINARY MEDICINE

Albendazole suspensions Albendazole tablets
Amprolium powder
Buparvaquone injectable solutions Calcium
Borogluconate solutions Chlortetracycline powder
benzypenicillin infusion Chlortetracycline spray
Dexamethasone solutions
Dichlorophen cream
Diminazene aceturate injectable soluble granules Diminazene
Diaceturate injectable soluble granules
Dipropionate injectable solutions
Dressings powder
Fenbendazole suspension
Flumequine powder
Gentamycin injectable solutions
Gumboro IBD, GEB-Strains Cu IM, 1/65PV strain vaccine
Homidium chloride tablets
Imidocarb
Iron dextran injectable solutions
Isometamidium chloride injectable soluble powders Ivermectin injectable
solutions
Ivermectin liquid
Levamisole + Oxytocanide bolus Levamisole +
Oxytocanide suspension Levamisole drench
Levamisole hydrochloride injections Lignocaine
injection
Mastitis intramammary (Benzyl penicillin) infusion, ointments Mastitis
intramammary
Mebendazole suspension
Multivitamin + Minerals powders
Multivitamin injectable solutions
Multivitamin soluble powders Newcastle vaccine
Neomycin infusion
Neomycin Sulphate infusion, ointments
Nitroxylin Eglumine injection Norfloxacin
Opticlox 21.37 % w/w, eye ointment
Oxtetracycline + Vitamins powder
Oxtetracycline aerosol spray Oxtetracycline injectable
solutions Oxtetracycline injectable solutions Parvaquone
injectable solutions
Oxtetracycline powder
Pen streptomycin injectable solutions Piperazine citrate
soluble powders Piperazine citrate tablets
Praziquantel + Pyrantel Pamoate tablets Sulfaclozine

powder
Sulfadiazine + Trimethoprim powder Sulfadimidine
injectable solutions Sulfadimidine injectable solutions
Sulfaquinoxaline + Trimethoprim powder Toltrazuril solution
